

# BSUoS II Run Settlement Data now available on our website

National Grid BSUoS Charging Circular

14<sup>th</sup> December 2017

This circular provides information about the provision of II Run BSUoS data on the National Grid website.

## Key Information

At our Settlement Forum on the 7<sup>th</sup> November 2017 several customers asked whether it would be possible for us to provide BSUoS II run data on our website in the same format as we currently do for SF and RF runs.

Although our system doesn't currently provide this functionality one of our analysts has devised and proven a method for obtaining this data which means we are now able to provide this on an ongoing basis.

From today (Thursday 14<sup>th</sup> December 2017) we are now publishing this data on our website. We have also completed a piece of work so that historical data back to the 1<sup>st</sup> April 2017 is included for II runs.

## Accessing the Data

This data is publically available and can be found by following the link below. Once on the BSUoS page scroll down and click the **Current BSUoS Data** link on the left hand side of the page under the **BSUoS Links** heading. Once you have done this you will see the 3 different run types of BSUoS data available displayed to the right of this, under the heading **Current BSUoS data**.

A screenshot is included on the final page of this document showing the relevant links described above.

## BSUoS Circulars

If you wish to receive BSUoS circulars via email please send an email to [BSUoS.Queries@nationalgrid.com](mailto:BSUoS.Queries@nationalgrid.com) asking to be added to our distribution list. Please mark your email with the subject line "**Please ADD me to BSUoS Circulars**"

If you receive BSUoS circulars but no longer wish to do so please email [BSUoS.Queries@nationalgrid.com](mailto:BSUoS.Queries@nationalgrid.com) asking to be removed from the distribution list. Please mark your email with the subject line "**Please REMOVE me from BSUoS Circulars**"

## Further Questions?

If you have any queries regarding this circular or have any suggestions on other data we may be able to provide that would be useful please contact the BSUoS team using the details below:

Email: [BSUoS.Queries@nationalgrid.com](mailto:BSUoS.Queries@nationalgrid.com)<sup>1</sup>

Tel: 01926 654 613

Website: <http://www.nationalgrid.com/bsuos/>

<sup>1</sup> Please help us keep our records up to date by informing us of any changes in contact details via the email address

## Balancing services use of system (BSUoS) charges

The BSUoS charge recovers the cost of day-to-day operation of the transmission system. Generators and suppliers are liable for these charges, which are calculated daily as a flat tariff for all users. BSUoS charges depend on the balancing actions that we take each day, but we provide a monthly forecast of BSUoS. You can also consult historical BSUoS charges.

The methodology that calculates BSUoS is set out in Section 14 of the CUSC. The monthly forecast of BSUoS is provided as part of the current [Monthly Balancing Services Summary report](#).

For more general information about the BSUoS charging process please consult our introduction presentation:
