

Daily Balancing Costs

Date:

12/01/2018

BSUoS Charge Estimate: £0.85/MWh
Total Outturn: £1.04m

Commentary

Three machines were bought for regulating reserve. 324 MW of stor was run in the later morning. There were a few wind farms bid off in Northern Engalnd due to high wind, also some wind actions were taken in North West Scotland. Trades were done on the interconnectors and BM actions were taken for ROCOF in the early morning and last two trades of the night.
