Dear Industry Colleagues

Firm Frequency response: Tendered Energy Response Payments

We would like to remind current and prospective FFR Providers that the FFR SCTs do not accommodate Response Energy Payments for non-BM service delivery, and accordingly Response Energy Fees are neither sought from such tenderers nor assessed as part of the tendering process. In all such cases, in relation to pricing, assessment is based solely on tendered Availability and Nomination Fees (£/h).

We are making this clearer by removing the Energy Response column from tender pro forma for FFR tender round 106 (1st October submission).

We can also confirm that in the case of FFR tender round 105.149, where a Response Energy Fee for non-BM service delivery was inadvertently submitted, that fee was ignored for assessment purposes and is not being paid as part of the contract award.

Yours sincerely,

Rob Rome
Commercial Operations Manager
