Dear Roberta,

This is the STC Modifications Panel's Self-governance Statement to the Authority for STC Modification Proposal CM073. National Grid ESO has prepared this Self-governance Statement on behalf of the STC Modifications Panel and submits it to you in accordance with the STC.

On 30 April 2019, the STC Modifications Panel considered CM073 and confirmed unanimously that it meets the Self-governance criteria. As such, CM073 is unlikely to discriminate between different classes of STC Parties and is unlikely to have a material effect on:

- i) Existing or future electricity customers;
- ii) Competition in the generation, distribution, or supply of electricity or any commercial activities connected with the generation, distribution or supply of electricity,
- iii) The operation of the National Electricity Transmission System
- iv) Matters relating to sustainable development, safety or security of supply, or the management of market or network emergencies
- v) The STC's governance procedures or the STC's modification procedures

The proposed timetable for the progression of CM073 is as follows:

Modification Panel Self-Governance vote	29 May 2019
Appeal window opens (15 working days)	7 June 2019
