Proposers: Harriet Harmon, National Grid ESO
Harriet.Harmon@nationalgrideso.com

Key areas of discussion

The Workgroup discussed the following:

- Implementation dates were briefly discussed. Workgroup view is to produce an output that could be implemented in April 2021, but consideration should be given to later dates.
- The workgroup also explored the definitions of the assets required for connection, including criteria options, whilst considering CMA decision. Discussions were also held in regards to the MITS vs NETS approach, as well as further discussions in regards to On/Offshore assets.

Next steps

The Workgroup agreed that the following next steps:

- The workgroup would indicate their availability for the next workgroup, to be held in the week commencing 19/08/2019
