

Date: Tuesday 01 Oct 2019

BSUoS Charge Estimate: £3.15/MWh
Total Outturn: £4.06m

Daily Balancing Costs

- BM Cost (Indicative)
- AS Cost (Estimate)

Commentary

The market was short overnight and into the day, with long peaks mainly around midday, mid-afternoon, and early evening. Trades and BM Actions eased thermal constraints in the South East during the day. Some BM Actions early morning due to local power flow constraints in the Wales area. Trades and BM Actions overnight into the morning for thermal constraints in the Scotland area - Trades helped continue to manage this to mid-afternoon. Overnight voltage support managed with Trades in the South East/Eastern areas; BM Actions for the Midlands, South and Wales areas. Interconnector Trading and BM Actions to maintain System Inertia overnight.
