

Date: **Wednesday 06 Nov 2019**

**BSUoS Charge Estimate: £1.64/MWh**  
**Total Outturn: £2.32m**

# Daily Balancing Costs

- BM Cost (Indicative)
- AS Cost (Estimate)

## Commentary

The market was long overnight becoming mostly short from 5am onwards. Between 6am and 9.30am around 422MW of STOR was run. Margins were comfortable across all constraints. To secure the RoCoF risk overnight there were Trades taken, with some BM Actions supporting alongside. Voltage Support assisted with overnight Trades and BM Actions in the South/South East and Midlands areas.
