

Code Administrator Meeting Summary

CMP308 - Removal of BSUoS charges from Generation

Date: 12 November 2019

Contact Details

Chair: Joseph Henry

Contact details: joseph.henry2@nationalgrideso.com

Proposer: Simon Vicary, EDF

Contact details Simon.Vicary@edfenergy.com

Key areas of discussion

The Workgroup discussed the following:

- The workgroup discussed potential alternatives bought forwards by SSE and Uniper.
- The alternatives put forwards by SSE were withdrawn, whilst Uniper and Centrica will be taking away alternatives to work on will be looking to develop before the next workgroup.
- The workgroup discussed amendments to the original proposed legal text. Changes had been suggested by both EDF and the ESO. Which version to use is being discussed offline.
- Workgroup considered the proposed legal text for CMP281 and if any clashes with CMP308 were apparent. This was not the case.

Next steps

The Workgroup agreed that the following next steps:

- ESO to work on amending legal text (Prior to next workgroup in December)
- Code Administrator to send out poll for date of next workgroup and update report. (19/11/19)
- Uniper and Centrica to work on alternatives

For further information, please contact the Code Administrator.
