CMP212 Relevant Interruptions Claim Report

Purpose of Relevant Interruption Claims Report

As a result of the implementation of **'CMP212: Process for setting minimum limits for claims for Relevant Interruptions'**, it was agreed that the Code Administrator would produce a report to the CUSC Panel detailing information in respect of the Relevant Interruptions received during each reporting period.

This report covers the reporting period from 1 January 2019 to 31 May 2019. These reports are produced quarterly as of 1 July 2014 and submitted to the CUSC Modifications Panel; due to a delay with the report from January to March the reporting has been extended within this report to bring it to date.

Summary

Table 1 below gives an overview of the status of the claims received during this reporting period.

Table 1
