

## IU Regional Operational Security Coordination Methodology Proposal

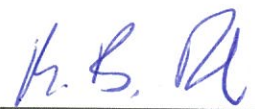

As required by the Commission Regulation (EU) 2017/1485 establishing a guideline on electricity transmission system operation (SOGL), the Transmission System Operators (TSOs) of the Ireland-UK (IU) Capacity Calculation Region (CCR), SONI Limited (SONI), EirGrid plc (EirGrid) and National Grid Electricity System Operator Limited (NGESO) have jointly prepared a proposal for common provisions for the regional operational security coordination of the IU CCR.

EirGrid, SONI and NGESO hereby submit a proposal (dated 18 December 2019) for the IU Regional Operational Security Coordination (ROSC) Methodology to the regulatory authorities for approval in accordance with Article 76 of Commission Regulation (EU) 2017/1485 of 2 August 2017 establishing a guideline on electricity transmission system.
