

Date: **Friday 20 Dec 2019**

BSUoS Charge Estimate: £3.11/MWh
Total Outturn: £4.74m

Daily Balancing Costs

- BM Cost (Indicative)
- AS Cost (Estimate)

Commentary

The market alternated long and short; long mainly during the early hours into the morning, and short mainly from 9.30am onwards. BM Actions in the early hours, increasing between 4am and 1pm, were required due to thermal constraints in Scotland. Voltage Support overnight assisted by BM Actions and Trades in the South/South East, Midlands, and Wales. Trading, and Interconnector Trades for RoCoF.
