

Code Administrator Meeting Summary

Meeting Name – CMP324/325 Workgroup 2

CMP324 - Generation Zones - changes for RIIO-T2 and

CMP325 Re-Zoning - CMP324 expansion

Date: 21 January 2020

Contact Details

Chair: Joseph Henry

joseph.henry2@nationalgrideso.com
07970673220

Proposer Grahame Neale, National Grid ESO

grahame.neale@nationalgrideso.com
07787261242

Key areas of discussion

- National Grid ESO provided further modelling on potential options for rezoning. The analysis included further work on using DNO zones, as per the original solution. Also presented were further insights into how amending the £/MW range would impact the number of zones, and associated RPI amendments. The ESO will be attending the next meeting with further updates to this analysis.
- The workgroup discussed the arguments for and against of potential alternatives. During the next workgroup, the analysis undertaken by the ESO will be used to work out the impacts of any potential alternative solutions.

The next Workgroup will be on 18th January 2020.

For further information, please contact the Code Administrator.

Action number	Date raised	Owner	Action	Date due
13	21 Jan 2020	GN	ESO to create table which shows range of nodal values/tariffs in each zone, per option, per background for inclusion in workgroup report.	WG4
14	21 Jan 2020	GN	CA to include agenda item on range of nodal values/tariffs for next workgroup	WG4
15	21 Jan 2020	GN	ESO/CA to include justification behind DNO analysis in the workgroup report	WG4
