

Code Administrator Meeting Summary

Meeting Name: GC0107/113 Workgroup 8

Date: 23 July 2019

Contact Details

Chair: Paul Mullen

Contact details: paul.j.mullen@nationalgrideso.com

Proposer: Rob Wilson

Contact details: robert.wilson2@nationalgrideso.com

Key areas of discussion

- Workgroup meeting discussed any showstopper comments associated with the legal text and the content of the workgroup report:
 - The proposed solution is the publication by the ESO of a spreadsheet which sets out all the technical requirements of general application or the technical requirements of specific application requirements that arise from the application of the Requirements for Generators (GC0107) and the Demand Connection Conditions (GC0113);
 - To make it clear for industry when responding to the workgroup consultation, it was agreed that there would be 3 spreadsheets included within the workgroup report:
 - Annex 1 is the original spreadsheet provided by the Proposer;
 - Annex 2 is the consolidated spreadsheet agreed by the workgroup and could form the basis of the report to be published by the ESO; and
 - Annex 3 is the template that network operators would complete and submit to the ESO. This will also be included as a Schedule in Grid Code.
- It was noted that the proposed solution that is being issued for workgroup consultation focuses on Requirements for Generators (covered by GC0107) and not the Demand Connection Conditions (covered by GC0113); however, the principles that have been applied in producing the GC0107 consolidated template will be applied when producing the GC0113 consolidated spreadsheet / template. A further workgroup consultation may be required for GC0113.

Next steps

The Workgroup agreed that the following next steps:

- Updated legal text and workgroup report to be issued to workgroup 24 July 2019;
- Workgroup to provide showstopper comments on legal text and workgroup report by 25 July 2019;
- Workgroup consultation to be issued 26 July 2019 (will be open until 5pm on 6 September 2019); and
- Meeting 13 September 2019 to discuss workgroup consultation responses.

Actions from this workgroup meeting (all added to action log)
