

Code Administrator Meeting Summary

GC0138 - Compliance process technical improvements (EU and GB User)

Date: 12 May 2020

Contact Details

Chair: Joseph Henry, National Grid ESO

joseph.henry2@nationalgrideso.com
07970673220

Proposer: Mark Horley, National Grid ESO

mark.horley@nationalgrideso.com

Key areas of discussion

The Workgroup discussed the following:

- The workgroup discussed the Terms of Reference for the Modification as set out by GCRP. It was noted that there are some crossovers with GC0141, and that certain parts of this modification may sit better under GC0141, which has the same defect. This will be finalised after the first GC0141 meeting on 27 May 2020.
- GC0138 and GC0141 will be assessed by the working groups on the same day moving forwards from June onwards.
- The workgroup considered a presentation from the proposer on GC0138, and from this had discussion on Factory Acceptance for both Wind Turbines and HVDC, as well as formats for supplying test data and simulations.
- The workgroup will meet again on 27 May to consider GC0141.
