

**CUSC Code Administrator Consultation Response Proforma****CMP324/5 Generation Zones – changes for RIIO-T2 and Rezoning – CMP324 expansion**

Industry parties are invited to respond to this consultation expressing their views and supplying the rationale for those views, particularly in respect of any specific questions detailed below.

Please send your responses to [cusc.team@nationalgrideso.com](mailto:cusc.team@nationalgrideso.com) by **5pm on 24 June 2020**. Please note that any responses received after the deadline or sent to a different email address may not receive due consideration by the Panel.

If you have any queries on the content of this consultation, please contact Joe Henry [joseph.henry2@nationalgrideso.com](mailto:joseph.henry2@nationalgrideso.com) or [cusc.team@nationalgrideso.com](mailto:cusc.team@nationalgrideso.com).

Respondent details	Please enter your details
<b>Respondent name:</b>	Kamila Nugumanova Kirsty Ingham
<b>Company name:</b>	ESB Generation and Trading
<b>Email address:</b>	Kamila.nugumanova@esb.ie
<b>Phone number:</b>	+44 7917751863

**For reference the applicable CUSC objectives are:**

- a. *That compliance with the use of system charging methodology facilitates effective competition in the generation and supply of electricity and (so far as is consistent therewith) facilitates competition in the sale, distribution and purchase of electricity;*
- b. *That compliance with the use of system charging methodology results in charges which reflect, as far as is reasonably practicable, the costs (excluding any payments between transmission licensees which are made under and accordance with the STC) incurred by transmission licensees in their transmission businesses and which are compatible with standard licence condition C26 requirements of a connect and manage connection);*
- c. *That, so far as is consistent with sub-paragraphs (a) and (b), the use of system charging methodology, as far as is reasonably practicable, properly takes account of the developments in transmission licensees' transmission businesses;*
- d. *Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency. These are defined within the National Grid Electricity Transmission plc Licence under Standard Condition C10, paragraph 1 \*; and*
- e. *Promoting efficiency in the implementation and administration of the CUSC arrangements.*

*\*Objective (d) refers specifically to European Regulation 2009/714/EC. Reference to the Agency is to the Agency for the Cooperation of Energy Regulators (ACER).*

**Please express your views in the right-hand side of the table below, including your rationale.**

Standard Code Administrator Consultation questions		
1	Do you believe that the CMP324/5 Original solution, WACM1, WACM2 or WACM3 better facilitates the Applicable CUSC Objectives?	<p>We believe that the Original CMP 324/325 proposal and its alternatives better facilitate CUSC charging objectives as follows:</p> <p>Original solution: Objectives a, c, e</p> <p>WACM 1: Objective c</p> <p>WACM 2: Objectives a, e</p> <p>WACM 3: Objective a</p>
2	Do you support the proposed implementation approach?	Yes, we support the proposed implementation approach.
3	Do you have any other comments?	<p>We support the original solution and the proposed implementation approach. However, we are still concerned about the number of concurrent modifications and a lack of holistic view of all changes affecting TNUoS charges. We are keen to see more certain and stable forecasts based on a baseline that includes all changes, including CMP 317/327 , CMP 320 and other relevant modifications. We would also urge NG ESO to alert the industry should the forecast and the baseline analysis provided as part of this consultation change materially before the implementation.</p>
