This Modification Proposal has no impact on core Industry documentation.

1 Summary

Defect

Exhibit Y

On 23 June 2020, the Authority approved CUSC Modification CMP323 'Updating the CUSC governance process to ensure we capture the EBGL change process for Article 18 Terms and Conditions'. It has been identified that that Exhibit Y of the CUSC (Mapping Table) was not included within the approved legal text - therefore this modification seeks to insert this.

Section 6

It has also been highlighted by Industry participants that Section 6 (General Provisions) of the CUSC has incorrect numbering and as such, this needs to be amended.

What

Exhibit Y

CMP323 'Updating the CUSC governance process to ensure we capture the EBGL change process for Article 18 Terms and Conditions' was approved by the Authority on 23 June 2020 with an Implementation date of 25 June 2020. CMP323 implemented changes to Section 4 (Balancing Services), Section 8 (Governance Rules), Section 11 (Interpretations and Definitions) and introduced Exhibit Y (EBGL Mapping Table). However, Exhibit Y (EBGL Mapping Table) was not submitted as part of the CMP323 legal text. The Proposer of CMP323 confirmed that this had no material impact on the implementation of CMP323; , however, this should be included as this provides transparency for industry parties as to whether or not a CUSC Modification will require a consultation in accordance with the provisions of EBGL.

Section 6

It has also been noted by industry participants that the numbering in Section 6 (General Provisions) is incorrect. The incorrect numbering is within Section 6.11 – Nuclear Installations, where the paragraph numbering references 6.10.

Why

Exhibit Y

Exhibit Y is needed in the CUSC as part of the EBGL process.

Section 6

The numbering in Section 6.11 is inconsistent and should be amended for clarity.

How

It is proposed that a Fast Track Self-Governance Modification is raised to insert Exhibit Y and amend the numbering in Section 6 of the CUSC.

2 Governance

Justification for Fast Track Self-Governance

The CUSC Panel, at their meeting on 31 July 2020 reviewed the Modification and unanimously agreed that CMP348 met the Fast Track Self-Governance criteria and should be implemented subject to a 15 Working Days appeals window.

The Proposer recommends that this Modification follows the Fast Track Self-Governance procedure as the changes meet the required criteria as the Modification is required as a result of factual change, including but not limited to:

- i) Updating names or addresses;*
- ii) Correcting minor typographical errors;*
- iii) Correcting formatting and consistency errors, such as paragraph numbering, or;*
- iv) Updating out of date references to other documents or paragraph

The Self-Governance criteria is met as the modification is unlikely to discriminate between different classes of CUSC Parties and is unlikely to have a material effect on:

- i) Existing or future electricity customers;
- ii) Competition in the generation, distribution, or supply of electricity or any commercial activities connected with the generation, distribution or supply of electricity,
- iii) The operation of the National Electricity Transmission System
- iv) Matters relating to sustainable development, safety or security of supply, or the management of market or network emergencies
- v) The CUSC's governance procedures or the CUSC's modification procedures

For information, Fast Track Self-Governance – Guidance

- Rectify internal inconsistencies
- Remove outdated (or redundant) information;
- Correct typographical errors in the CUSC; or
- Further development / detail existing processes or code arrangements (without introducing new requirements upon code parties which significantly impact business practices or systems).

3 Why Change?

CMP348 will insert Exhibit Y into the CUSC and amend the numbering in Section 6 to ensure consistency.

4 Code Specific Matters

Technical Skillsets

Not required.

Reference Documents

Ofgem decision letter on CMP323 'Updating the CUSC governance process to ensure we capture the EBGL change process for Article 18 Terms and Conditions'

5 Solution

It is proposed that to insert Exhibit Y into the CUSC and rectify the numbering within Section 6, Paragraph 6.11 (Nuclear Installations).

6 Impacts & Other Considerations

Does this modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

This Modification has no impact on the Significant Code Review (SCR) or other significant industry change projects.

Consumer Impacts

This Modification has no material impact on consumers.

7 Relevant Objectives

Impact of the modification on the Applicable CUSC Objectives (Standard):

Relevant Objective	Identified impact
(a) The efficient discharge by the Licensee of the obligations imposed on it by the Act and the Transmission Licence;	None
(b) Facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the sale, distribution and purchase of electricity;	None
(c) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency *; and	None
(d) Promoting efficiency in the implementation and	Positive

administration of the CUSC arrangements.	
--	--

*Objective (c) refers specifically to European Regulation 2009/714/EC. Reference to the Agency is to the Agency for the Cooperation of Energy Regulators (ACER).

The Proposer believes that this change will better facilitate relevant objective (d).

8 Implementation

It is proposed that the CMP348 Fast Track Self-Governance Proposal is implemented 5 working days after the appeals window closes, providing no objections have been raised.

The proposed implementation date is 8 September 2020.
