

## Code Administrator Meeting Summary

**Meeting name: GC0145/P407 Workgroup 3**

**Date:** 20 August 2020

### Contact Details

**Chair:** Jennifer Groome

**Contact details:** [jennifer.groome@nationalgrideso.com](mailto:jennifer.groome@nationalgrideso.com)

**Proposer:** Louise Trodden

**Contact details:** [louise.trodden@nationalgrideso.com](mailto:louise.trodden@nationalgrideso.com)

### Key areas of discussion

- The Chair gave an update on actions and shared the updated timeline.
  - A Doodle poll will be sent out from Elexon to get an alternative date for Workgroup 5 which was scheduled for 1 September. [Post-meeting note: Elexon will also send out a Doodle poll for an additional Workgroup meeting between 14 – 25 September – this is a placeholder and will be used if needed].
- Chris Wood from Elexon gave an update on the Free Trade Agreement.
  - Negotiations are still ongoing; it is likely that there will be more information in September / October time.
- Robert Selbie from ElecLink presented slides which set out how the Interconnector Settlement arrangements work currently.
  - Slide 6 of the presentation listed a number of considerations for interconnectors. The Workgroup discussed which of the points on the slide were within scope of the MARI modifications. NGESO and ESO Code Administrator took an action to record the points and the Workgroup discussion in a table for inclusion in the Workgroup Consultation document.
- Louise Trodden from NGESO presented slides on Dispatch and Settlement which also covered answers to questions asked in previous workgroups.
  - Some Workgroup members requested a draft Interconnector data flow diagram for MARI. NGESO responded that it needs a considerable amount of collaboration with industry before the data flow diagram is available. It is currently envisaged that this will be available in Summer 2021. The data flow diagram for TERRE was shared with the Workgroup to give an indication of what it might look like – however, this needs work for MARI.
- Matt Roper from Elexon presented slides on Cashflows and Imbalance price.

- Due to time constraints, the presentation was cut short. The presentation will be covered again in Workgroup 4, after the Workgroup have had more time to look at the slides in advance.

## Next Steps

- The next workgroup will be on 26 August 2020 to continue discussing the topic of Dispatch and Settlement as well as reviewing the Grid Code Legal text.

## Action Log

The action log can be found on the [GC0145 modification page](#).
