

# Mock Tender Guidance for Dynamic Containment

## Objective of Mock Tender

The purpose of the mock tender is to facilitate DC soft launch on 1<sup>st</sup> October 2020 by giving all parties an opportunity to practice their internal processes around data collection, file formatting and timeline structures.

## Timescales

17:00 Tuesday 22/09/2020, deadline for expressions of interest

10:00 Wednesday 23/09/2020 deadline for submitting completed provider data template to NGESO

10:00 Thursday 24/09/2020, deadline for submitting tender template to NGESO

17:00 Thursday 24/09/2020, results of the mock tender published on the Data Portal

Monday 28/09/2020, mock tender review webinar (further details to follow)

## Registration for Mock Tender

We invite you to respond to [Commercial.Operation@nationalgrideso.com](mailto:Commercial.Operation@nationalgrideso.com) by 17:00 Tuesday 22nd September 2020 expressing your interest. There is no formal template for your expression of interest. In your email, please use the subject title: DC mock tender - Agent/ Applicant Name - expression of interest.

## File Submission

The two files participants need to submit are: Provider Data Template and Tender Template.

Please name the file as [Agent/Applicant Name - DC - 23.09.20] or [Agent/Applicant Name - DC - 24.09.20]. The format of the files needs to be xls instead of csv.

Please submit these two files to [Commercial.Operation@nationalgrideso.com](mailto:Commercial.Operation@nationalgrideso.com) and use the subject title: DC Mock Tender - Agent/Applicant Name - Provider Data Template Submission or DC mock tender - Agent/Applicant Name - Tender Template Submission

The deadlines for submission are: 10:00 Wednesday 23/09/2020 (provider data template) and 10:00 Thursday 24/09/2020 (tender template).

Please submit these two files in two separate emails in go-live phase.

## Provider Data Template

The Provider Data Template can be found [here](#).

There is no need to submit testing reports or Form A/ B/ C. The mock tender is purely for trial of the process so dummy data is acceptable.
