

CUSC Special Panel Headline Report

16 September 2020

Connection and Use of System Code (CUSC) Panel

The CUSC Panel Headline Report is produced after every CUSC Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Draft Final Modification Reports

CMP333 'BSUoS – charging Supplier Users on gross demand (TCR)'

On 21 November 2019, The Authority published a Direction requiring National Grid Electricity System Operator to raise changes to the CUSC giving effect to their Decision to levy Balancing System Use of System (BSUoS) charges to Suppliers on the basis of their gross demand. CMP333 has been raised to effect this.

The CUSC Panel unanimously recommended that the Original facilitated the CUSC Objectives than the Baseline (the arrangements currently set out in CUSC). Final Modification Report will be issued to Ofgem on 18 September 2020.

CMP333 documentation can be located via the following link:
