

Code Administrator Meeting Summary

CMP308 - Removal of BSUoS charges from Generation

Date: 27 January 2021

Contact Details

Chair: Joseph Henry Contact details: joseph.henry2@nationalgrideso.com

Proposer: Simon Vicary, EDF Contact details Simon.Vicary@edfenergy.com

Key areas of discussion

The Workgroup discussed the following:

- The workgroup reconvened for the first time since November 2019.
- The workgroup considered the findings of the Second Balancing Services Charges Task Force and other BSUoS related modifications, such as CMP281 and CMP333.
- The ESO outlined the plan for BSUoS modifications over the coming months.
- The workgroup also discussed the analysis which would be needed in order to progress this modification, which aspects of discussion focussing on Ofgem's cost benefit analysis.
- The workgroup agreed that its aim was to implement CMP308 by 1st April 2023, in line with the recommendation of the Second Balancing Services Charges Task Force.
- The alternative solutions to CMP308 were reviewed, all but WACM1 were withdrawn.
- The Terms of Reference were amended to reflect changes since the workgroup last convened; particular emphasis was placed on the definition of "final demand", and how this would work moving forwards.
- Amendments to the proposed legal text, using new baselining, were discussed.

Next steps

The Workgroup agreed that the following next steps:

- ESO to work on options for Legal text
- Workgroup to meet 16 February 2021

- New Terms of reference to be submitted to CUSC Panel.
