<b>Respondent name:</b>	Matt Baller
<b>Company name:</b>	National Grid ESO
<b>Email address:</b>	Matt.baller@nationalgrideso.com
<b>Phone number:</b>	07866197575

**For reference the Applicable STC Objectives are:**

- a) *efficient discharge of the obligations imposed upon transmission licensees by transmission licences and the Act*
- b) *development, maintenance and operation of an efficient, economical and coordinated system of electricity transmission*
- c) *facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the distribution of electricity*
- d) *protection of the security and quality of supply and safe operation of the national electricity transmission system insofar as it relates to interactions between transmission licensees*
- e) *promotion of good industry practice and efficiency in the implementation and administration of the arrangements described in the STC.*
- f) *facilitation of access to the national electricity transmission system for generation not yet connected to the national electricity transmission system or distribution system;*
- g) *compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency.*

**Please express your views in the right-hand side of the table below, including your rationale.**

Standard Workgroup Consultation questions		
1	Do you believe that the CM075 Original Proposal better facilitates the Applicable Objectives?	Yes. Aligned with Proposer's rationale.
2	Do you support the proposed	Yes.

	implementation approach?	
3	Do you have any other comments?	<p>We are supportive of this proposed change in that it simply aligns relevant wording with existing practises rather than creating new obligations or changing processes.</p> <p>We note particularly the Proposer's acknowledgement within "Interactions" that while this STC Definition does not align with the CUSC definition of Final Sums, it presents no challenges as they are applicable to different specifics within the individual codes.</p>
