121.	Provide an update on Article 35 and Article 36 of the recast Electricity Regulation once ACER has provided an opinion on the ENTSOE SOR proposals.	Bernie Dolan (NGESO)	Open	<p>Article 36 – Scope of TSO’s</p> <p>ACER response on 6th April. No comments in regards to IU SOR and Channel CCR. There was a comment around 3rd party non EU TSOs and withdrawal agreement. Participation in the RCC will be dependent on the nature of Brexit deal. (Swiss grid were removed from the proposal due to not being EU) For info, the TSOs of the Central SOR are planning an appeal as ACER merged CORE and SWE into a single SOR.</p> <p>Article 35 – Scope of engagement requirement</p> <p>Proposal for the RCCss was submitted by TSOs to NRAs on 5th July 2020</p> <p>Dependent on EU Withdrawal Agreement.</p>

New & Open Actions				
ID	Topic	Lead Party	Status	Update
127.	ENTSO(E) membership update in relation to TSO position regarding EU Exit.	Andrew Hemus (NGESO)	Open	<p>During the transition phase, the United Kingdom remains bound by all existing European regulations including obligations contained in Network Codes and the Clean Energy Package. NGESO remains a member of ENTSO-E during the transition phase (ENTSO-E has always had members from outside the EU, and the European Economic Area e.g. Norway, Switzerland, Albania, North Macedonia etc.) therefore the level of future cooperation in ENTSO-E will depend on the UK's future relationship with the European Union and as the EU-UK negotiations on reaching an Agreement become clearer, we will be able to update further.</p> <p>The UK will no longer be a member of ENTSO-E.</p>
128.	Provide an update on when the two derogation requests under Article 6 of the recast Electricity Regulation (i.e. related to Article 6.4 and Article 6.9) are to be published.
