For reference the Applicable Grid Code Objectives are:

- a) *To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity*
- b) *Facilitating effective competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity);*
- c) *Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national electricity transmission system operator area taken as a whole;*
- d) *To efficiently discharge the obligations imposed upon the licensee by this license and to comply with the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency; and*
- e) *To promote efficiency in the implementation and administration of the Grid Code arrangements*

Please express your views in the right-hand side of the table below, including your rationale.

Standard Workgroup Consultation questions		
1	Do you believe that the GC0150 Original Proposal or better facilitates the Applicable Objectives?	GC0150 is a very minor change suggested by Ofgem in their decision on GC0147. It clarifies cross-referencing of the priority order in which embedded generators may be considered to be included in the implementation by DNOs of an embedded generation control instruction issued by the ESO. As such, it better fulfils objective (c) by improving clarity of the GC0147 solution which is intended to maintain system security.
2	Do you support the proposed implementation approach?	Yes – this is a very minor change.
3	Do you have any other comments?	No
