

# CMP298

## Friday 12 November 2021

Online Meeting via Teams

# WELCOME

**nationalgrid**ESO

The slide features several decorative yellow lines. In the top left, there are several thin, curved lines that sweep across the upper portion of the slide. In the bottom right, there are several thick, parallel diagonal lines that extend from the bottom left towards the top right, creating a sense of movement and direction.

# Objectives and Timeline

Paul Mullen – National Grid ESO Code Administrator

# Timeline for CMP298 V10 as at 5 October 2021

Milestone	Date	Milestone	Date
Workgroups 1 to 6	Already held – Workgroup 6 was 4 October 2019	Panel sign off that Workgroup Report has met its Terms of Reference	17 December 2021
Workgroup 7 – present Product Document, clarify solution, review legal text, review terms of reference	23 February 2021	Code Administrator Consultation (usually 15 Working Days but extended due to Christmas)	20 December 2021 to 5pm on 17 January 2022
Workgroup 8 – finalise Product document, review legal text and schedules, implementation approach and discuss Workgroup Consultation Questions	28 June 2021 (10-3pm)	Draft Final Modification Report (DFMR) issued to Panel	20 January 2022
Workgroup 9 and 10 – finalise legal text and schedules, finalise Workgroup Consultation	26 July 2021 (12 – 3pm)	Panel undertake DFMR recommendation vote	28 January 2022
Workgroup Consultation (15 Working Days)	12 August 2021 – 5pm on 10 September 2021	Final Modification Report issued to Panel to check votes recorded correctly (5 working days)	2 February 2022
Workgroup 11, 12 and 13 - Assess Workgroup Consultation Responses, review any request for Alternatives and hold Alternative Vote	22 September 2021 (9.30 – 12.30pm), 6 October 2021 and 12 November 2021	Final Modification Report issued to Ofgem	10 February 2022
Workgroup 14 – Confirm Terms of Reference have been met and hold Workgroup Vote	24 November 2021	Ofgem decision	TBC
Workgroup report issued to Panel	9 December 2021	Implementation Date	TBC

The slide features several decorative yellow lines. In the top left, there are several thin, curved lines that sweep across the upper portion of the slide. In the bottom right, there are three thick, parallel diagonal lines that extend from the bottom left towards the top right. A yellow line also runs horizontally along the bottom edge of the slide, with a small step-like cutout on the right side.

# Workgroup Responsibilities

Paul Mullen – National Grid ESO Code Administrator

## Expectations of a Workgroup Member

Contribute to the discussion

Be respectful of each other's opinions

Language and Conduct to be consistent with the values of equality and diversity

Do not share commercially sensitive information

Be prepared - Review Papers and Reports ahead of meetings

Complete actions in a timely manner

Keep to agreed scope

## Your Roles

Help refine/develop the solution(s)

Bring forward alternatives as early as possible

Vote on whether or not to proceed with requests for Alternatives

Vote on whether the solution(s) better facilitate the Code Objectives

# How the Workgroup Alternative Vote and Workgroup Vote work

**Paul Mullen – National Grid ESO Code Administrator**

# CMP298 – Can I vote? and What is the Alternative Vote?

To participate in any votes, Workgroup members need to have attended at least 50% of meetings

## Stage 1 – Alternative Vote

- Vote on whether Workgroup Alternative Requests should become Workgroup Alternative CUSC Modifications.
- The Alternative vote is carried out to identify the level of Workgroup support there is for any potential alternative options that have been brought forward by either any member of the Workgroup OR an Industry Participant as part of the Workgroup Consultation.
- **Should the majority of the Workgroup OR the Chairman believe that the potential alternative solution may better facilitate the CUSC objectives than the Original then the potential alternative will be fully developed by the Workgroup with legal text to form a Workgroup Alternative CUSC modification (WACM) and submitted to the Panel and Authority alongside the Original solution for the Panel Recommendation vote and the Authority decision.**

# CMP298 – Can I vote? and What is the Workgroup Vote?

To participate in any votes, Workgroup members need to have attended at least 50% of meetings

## Stage 2 – Workgroup Vote

- 2a) Assess the original and WACMs (if there are any) against the CUSC objectives compared to the baseline (the current CUSC)
- 2b) Vote on which of the options is best.

The slide features several decorative yellow lines. In the top left, there are several thin, curved lines that sweep across the upper portion of the slide. In the bottom right, there are three thick, parallel diagonal lines that extend from the bottom left towards the top right. The background is a solid light blue.

# **Review of Next Steps agreed at 22 September 2021 meeting (and updated at 6 October 2021 meeting. Latest update: 9 November 2021)**

**Paul Mullen – National Grid ESO Code Administrator**

# Hold Alternative Vote

Paul Mullen – National Grid ESO Code Administrator

# Review Terms of Reference

Paul Mullen – National Grid ESO Code Administrator

## CMP298 – Terms of Reference

Workgroup Term of Reference	Location in Workgroup Report
a) Consider EBR implications	No EBR implications
b) Consider generation connection Types A, B, C, D and storage	Out of Scope for CMP298
c) Review the existing trial Appendix G documents	
d) Ensuring transparency around future changes to Appendix G	
e) Consider consumer and customer impacts	
f) Cross code impacts including the consideration of suitable pass through fees	
g) Consider work carried out in 2017 by the ENA Open Networks SOW focus group along with current SO/TO interfaces	
h) Consider responses to User Commitment (CMP192) Open Letter by National Grid	Is this relevant and if so how?
i) Consider existing SOW process within the CUSC	
j) Clarification on the process and timescales	

The slide features several decorative yellow lines. In the top left, there are several curved, overlapping lines. In the bottom right, there are several parallel diagonal lines that sweep upwards from left to right.

# Next Steps

Paul Mullen – National Grid ESO Code Administrator
