Reference: GC0152 Self-Governance Statement

Dear Gurpal,

This is the Grid Code Panel's Self-Governance Statement to the Authority for Grid Code Modification Proposal GC0152 '*Updating the Grid Code governance process to ensure we capture network code on electricity emergency and restoration (NCER) change process for Article 4 Terms and Conditions (T&Cs)*'. National Grid ESO has prepared this Self-Governance Statement on behalf of the Grid Code Panel and submits it to you in accordance with the Grid Code.

On 30 September 2021 the Grid Code Panel considered GC0152 and unanimously confirmed that it meets the Self-Governance criteria.

As such, GC0152 is unlikely to discriminate between different classes of Grid Code Parties and is unlikely to have a material effect on:

- i) Existing or future electricity customers;
- ii) Competition in the generation, distribution, or supply of electricity or any commercial activities connected with the generation, distribution or supply of electricity,
- iii) The operation of the National Electricity Transmission System
- iv) Matters relating to sustainable development, safety or security of supply, or the management of market or network emergencies
- v) The Grid Code's governance procedures or the Grid Code's modification procedures

The proposed timetable for the progression of GC0152 is as follows:
