

Code Administrator Consultation

GSR028: Making the SQSS Gender Neutral

Overview: To remove any gender specific references or terminology within the Security and Quality of Supply Standards (SQSS).
&
Make a minor housekeeping change to Table 6.4

Modification process & timetable

Have 10 minutes? Read the full [Code Administrator Consultation](#)

Have 20 minutes? Read the full Code Administrator Consultation and Annexes.

Status summary: We are now consulting on this proposed change.

This modification is expected to have a: **Low impact**

No parties should be impacted by these minor, non-material changes.

Governance route: Standard Governance modification to proceed to Code Administrator Consultation

Who can I talk to about the change?

Proposer

Shazia Akhtar

Shazia.Akhtar2@nationalgrideso.com

Phone: 07787266972

Code Administrator Chair:

Jennifer Groome

Jennifer.Groome@nationalgrideso.com

What is the issue?

This modification is seeking to remove any gender specific references or terminology within the SQSS and make it Gender Neutral.

Why change?

These changes will have a positive impact, as they will remove any gender bias, inequality, and discrimination within the SQSS. They will also acknowledge diversity and convey respect to all people. As well as aligning the SQSS to similar changes which have already taken place within the CUSC¹ and Grid Code².

What is the Proposer's solution?

The following change will be required to the SQSS along with one minor housekeeping alteration:

Current Term	Future Term	Parts of the standard impacted
His	Their	Paragraph 1.17 SQSS

Housekeeping change:

GSR026:

As part of the implementation for GSR026³, the figure below in table 6.4 should have been revised from 1.0pu to 1.09pu.

Table 6.4 Steady State Voltage Limits and Targets in Operational Timescales

(a) Voltage Limits on Transmission Networks			
Nominal Voltage	PU Value (1pu relates to the Nominal Voltage)	Minimum (percentage of Nominal Voltage)	Maximum (percentage of Nominal Voltage)
Greater than 300kV	0.90pu-1.05pu	-10%	+5% Note 7
200kV up to and including 300kV	0.90pu-1.09pu	-10%	+9%
132kV up to and including 200kV	0.90pu-1.10pu	-10%	+10%
(b) Voltage Limits at Interfaces to Distribution Networks and Non-Embedded Customers			
Nominal Voltage			
132kV	0.90pu-1.10pu	-10%	+10%
At less than 132kV	0.94pu-1.06pu	-6%	+6%

Changes implemented to the Industry Governance Framework

The following changes were also proposed to the Industry Governance Framework along with some minor typographical and formatting amendments. They were all approved by the SQSS Panel on 22 March 2022 and have been implemented on 28 March 2022. Please refer to Annex 3 of this consultation document for further information on these changes.

Current Term	Future Term	Parts of the standard impacted
Chair/Chairman	Chairperson	Industry Governance Framework
He	They	Industry Governance Framework
His	Their	Industry Governance Framework

SQSS objective 3.1 (iv) has also been amended to the following: “facilitate electricity Transmission Licensees to comply with any relevant obligations under EU law”.

And the link to the SQSS Modification Proposal form in the Industry Governance Framework has also been updated.

Final legal text

The full legal text, with tracked changes can be found in Annex 2.

What is the impact of this change?

Proposer’s assessment against SQSS Objectives

Relevant Objective	Identified impact
(i) facilitate the planning, development and maintenance of an efficient, coordinated and economical system of electricity transmission, and the operation of that system in an efficient, economic and coordinated manner;	Neutral
(ii) ensure an appropriate level of security and quality of supply and safe operation of the National Electricity Transmission System;	Neutral
(iii) facilitate effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the distribution of electricity; and	Neutral
(iv) facilitate electricity Transmission Licensees to comply with any relevant obligations under EU law.	Neutral

Proposer’s assessment of the impact of the modification on the stakeholder / consumer benefit categories

Stakeholder / consumer benefit categories	Identified impact
Improved safety and reliability of the system	Neutral

Lower bills than would otherwise be the case	Neutral
Benefits for society as a whole	Positive By removing any gender bias, inequality, and discrimination within the standard and promoting equality and diversity.
Reduced environmental damage	Neutral
Improved quality of service	Positive This will promote efficiency in the implementation and administration of the SQSS arrangements, by removing any gender bias, inequality, and discrimination within the code and promoting equality and diversity.

When will this change take place?

Implementation date

Changes to the SQSS will need to be implemented in line with the Authority timeline. As the proposed changes are minor, it has been considered that the Authority may hold off from running a licence consultation. In the meantime, a draft version of the SQSS would be published on the ESO website with a covering note explaining the changes within it.

Date decision required by

SQSS Panel vote to take place on 11 May 2022.

Implementation approach

No systems or processes will need to be amended as a result of this proposal.

modifications | <input type="checkbox"/> Other | |

This Proposal is closely linked to the CUSC and Grid Code modifications CMP380 and GC0153. Which have already been implemented to make the CUSC and Grid Code gender neutral. Further modifications to make similar changes to the STC/STCPs' will also be raised in March 2022.

How to respond

Code Administrator consultation questions

- Do you believe that GSR028 Original proposal better facilitates the Applicable Objectives?
- Do you support the proposed implementation approach?
- Do you have any other comments?

Views are invited on the proposals outlined in this consultation, which should be received by 5pm on **26 April 2022**. Please send your response to box.sqss@nationalgrideso.com using the response pro-forma which can be found on the [modification page](#).

If you wish to submit a confidential response, mark the relevant box on your consultation proforma. Confidential responses will be disclosed to the Authority in full but, unless agreed otherwise, will not be shared with the Panel or the industry and may therefore not influence the debate to the same extent as a non-confidential response.
