

Agenda

Grid Code Development Forum

Date: 6 April 2022	Location: Digital only meeting
Start: 09:00	End: 11:00

Agenda for Grid Code Development Forum (GCDF)

Topics to be discussed	Owner
1. Introductions and review of previous actions	Rob Wilson, NGESO
GCDF	
2. Presentation: Virtual Energy System	Jonathan Barcroft, NGESO
3. Verbal Update: Whole System Technical Code	Vicky Allen, NGESO
4. AOB and Meeting Close	

The Virtual Energy System (VES)

The ambition of the Virtual Energy System is to develop an ecosystem that will integrate digital twins (models and data) from organisations across electricity and gas; from generation through networks to consumption; and in future linking into related sectors. We will introduce the innovation programme; share our progress and we look forward to hearing your feedback.

Whole System Technical Code

The Whole System Technical Code Team will provide a verbal update in relation to the project.
