### Key areas of discussion

#### Workgroup Report

- The Workgroup reviewed the comments from a Workgroup member. The majority of suggested changes were agreed to be incorporated into the report and the updated report was agreed as final.

#### WAGCMs/Workgroup Vote

- The Chair confirmed all 14 WAGCMs with the Workgroup before proceeding to the Vote. It was clarified that WAGCM 14 was the compilation of the Workgroup's preferred option(s).
- A Workgroup member expressed dissatisfaction with the approach taken to finalise the WAGCMs and vote, they felt that the WAGCMs could have been streamlined further. This opinion was recorded on their voting form.

### Next Steps

- The Chair advised that the completed voting forms will be circulated to the Workgroup on 06 May 2022 to check that votes have been recorded correctly and asked that respond by 13 May 2022.
- The Workgroup report will be forwarded to the Grid Code Panel on 18 May and the Panel make a decision at the next Grid Code Panel meeting on 26 May 2022. This outcome will be forwarded to the Workgroup by the next working day.
