Key areas of discussion

- Since the previous meeting, a subgroup had held two meetings to discuss the legal text. The subgroup updated on the progress they had made on the legal text drafting. Actions were taken to further refine the legal text which are detailed in the table below.
- The Workgroup reviewed their timeline and agreed that two more meetings are required in advance of holding the Workgroup Consultation. An action was taken for the Chair to amend the timeline and request an extension from the Grid Code Panel.
