## Key areas of discussion

- This modification seeks to outline the work that needs to be completed within GB to ensure compliance with NCER and address some other related items which neatly fit within the Emergency and Restoration Code arena.
- The primary aim of this meeting was to review the Workgroup Consultation responses, discuss the alternative solution (raised after Consultation) and carry out an alternative vote. The key points were;
  - Distributed Restart should be moved out of GC0148 and into GC0156 where it would be developed further and address discrepancies
  - There was a support for 72 hour mains independent resilience period (rather than 24 hour period in E&R)
  - There were some comments on the notification letters
- The workgroup agreed that the alternative solution raised by a workgroup member was within scope and therefore voted for it, this became WAGCM1.
- The Workgroup reviewed the Terms of Reference and agreed it has been met
- The Workgroup also reviewed the Workgroup Report and comments were addressed

## Next Steps

- Legal text meetings on 16<sup>th</sup> -18th May 2022 to address comments following consultation
- Workgroup meeting on 27 May 2022 to review legal texts with the wider workgroup, Workgroup Report, confirm that the Terms of Reference has been met and conduct a workgroup vote
