

Code Administrator Meeting Summary

Meeting name: CMP286 and 287 Workgroup 10

Date: 23 March 2022

Contact Details

Chair: Paul J Mullen

Contact details: Paul.Mullen@nationalgrideso.com

Proposer: Niall Coyle

Contact details: Niall.coyle@eonenergy.com

Key areas of discussion

- CMP286/CMP287 seeks to improve TNUoS predictability through increased notice of the Target Revenue (CMP286) and inputs (CMP287) used in the TNUoS Tariff Setting Process and proposes to fix the Target Revenue and certain inputs 15 months ahead of TNUoS tariffs going live.
- The purpose of this Workgroup was to finalise the Workgroup Consultation and understand the latest on changes to the System Operator – Transmission Code (STC) and the business rules that the legal text will be based on – this will be added to the Workgroup Consultation. The Workgroup agreed with the Chair's proposed way forward to finalise the Workgroup Consultation.
