

SQSS Panel Headline Report – 13 July 2022

Meeting name Security and Quality of Supply Standards Panel

The NETS SQSS Review Panel Headline Report is produced after every NETS SQSS Review Panel and aims to provide an overview of the key discussion points.

Approval of Minutes

Panel Members approved the minutes from the May Panel meeting which can be found on the National Grid ESO website via the following [link](#).

New Modification Proposal

GSR029 – Review of Demand Connection Criteria to Align with EREC P2/7

This modification is proposed to review the demand connection criteria in Section 3 of the NETS SQSS to resolve the discrepancies with EREC P2/7. This includes the review of the group demand definition and demand security contribution assumptions from embedded generation, demand side response, storage and active network management schemes.

The Panel agreed that the modification should follow the standard governance route and that a Workgroup should be set up to consider the modification. They noted the timeline.

Draft Modification Proposal

SQSS Infeed Loss Risk Change Proposal

A Proposal is being drafted in this area to address the following:

- Current limit restricts to current normal loss of infeed risk of 1320MW leading to potential sub-optimal investment
- Currently no differentiation between monopole and bipole which could lead to unnecessary restriction on the use of certain technologies

The modification was presented and the Panel shared comments on the draft Proposal. It was suggested that workshops are held to develop the Proposal ahead of submission to Panel in September.

Other

FRCR 2023

The ESO shared the background to the FRCR work and the scope of the 2023 FRCR. The presentation focussed on Minimum Inertia policy, ALoMCP closure and Policy review (FRCR 2021 policy).

The ESO presented policy recommendations that may be delivered through the FRCR 2023 and the impact on consumer value through implementing the FRCR 2023, before explaining the timeline for delivery of the work.

AOB

None

Date of the next meeting

The next SQSS Panel meeting will be held on **14 September 2022**.
