

Code Administrator Meeting Summary

Meeting name: CMP379 Workgroup 1

Date: 22 July 2022

Contact Details

Chair: Jennifer Groome

Contact details: Jennifer.Groome@nationalgrideso.com

Proposer: Harvey Takhar

Contact details: Harvey.Takhar1@nationalgrideso.com

Key areas of discussion

- The Chair took the Workgroup through the timeline for the modification. It was noted that the Workgroup may be able to carry out their work in shorter timescales than planned.
- The Proposer gave a presentation which explained the defect, what is in scope of the work and the Original solution. The Original solution looks to update Section 14 of the CUSC to clarify how TNUoS demand zones and therefore TNUoS demand tariffs and charges should be determined for transmission-connected demand users who connect at the boundaries of multiple DNO areas. The Workgroup discussed the proposal and came up with three other options for the Proposer to consider – these were:
 - As Original, but fixed for the length of the price control
 - An average of the zonal prices for each DNO zone
 - Use the nodal price
- The Workgroup reviewed their Terms of Reference, and no suggested changes were made.
- The Chair recapped the actions taken at the meeting, which are summarised in the table below.

Open Actions

Action Number	Workgroup raised	Owner	Action	Comment	Due by	Status
1	WG1	HT/JZ	Ascertain scale of the issue from ESO connections team		WG2	Open
2	WG1	JZ/GM	Carry out quantitative analysis on volatility (re: ToR (c))		WG2	Open
3	WG1	HT	Liaise with ESO Legal regarding legal implications of non-geographic charging (re: ToR (g))		WG2	Open

Next steps

- The next Workgroup meeting is on 11 August 2022.
