

STC Panel Actions

September 2022 Actions

Ongoing Actions

Date raised	Ref	Owner	Action	Current Position	Due by	Status
September	Minute 6031	Panel	Panel to discuss next steps regarding how an electronic switching instruction should be implemented to maintain the necessary checks under the appropriate safety rules while considering possible efficiencies	The STCP01-1 that allows electronic instruction is not in dispute, how an electronic instruction is implemented remains an area for further discussion. Following the September offline meeting, MRPL have agreed with the ESO that they should be instructed verbally to	October	Open

				carry out switching via their control point as is standard practice.		
September	Minute 6083	RWI	Laura Henry will provide an update to STC Panel on the Connection Reform	To contact the ESO Connections team, if they could present to the Panel on the progress of work on Connection Reform		Open
January	Minute 5723	TB	NGESO to arrange follow up discussions with NGET and other TOs as required to consider ways of working and possible STCP amendments (in relation to black start arrangements). Suggested timing is after Grid Code mods GC0148 and GC0156 implementing Emergency & Restoration and Restoration Standard requirements have progressed slightly further.	Remains the same	October 2022	Open
		TB		Await until GC0148 and GC0156 are more developed and update Panel. An update was given at the July Panel on GC0156. PM0128(GC0156) will be presented as draft at October 2022 Panel.		Open
