

Special Grid Code Review Panel Headline Report – 18 October 2022

Grid Code Review Panel

The Grid Code Review Panel Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Workgroup Reports

The following Workgroup Report was presented to the Panel:

GC0160: Grid Code Changes for BSC Mod P448: "Protecting Generators subject to Load Shedding during a Gas Supply Emergency from excessive Imbalance Charges"

[The BSC P448 Modification](#) proposes to address the risk of Generators in GB being prevented from generating this winter (due to Load Shedding during a Network Gas Supply Emergency) by allowing such Load Shedding instructions to be settled as Bids. As a result, and to ensure consistency between the BSC and the Grid Code, this Modification seeks to ensure that the actions of the affected party relating to Physical Notifications are aligned.

The Panel agreed that the Terms of Reference have been met and agreed for GC0160 to proceed to Code Administrator Consultation. The Code Administrator Consultation will be published on 18 October 2022 and this will close on 18 November 2022.

GC0160 documentation can be found [here](#)
