

# **BP2 Draft Determinations Update**

**Grid Code Development Forum (GCDF)**

Wednesday 23 November 2022

# What are draft determinations?

- **Draft determinations (DDs)** are Ofgem's assessment of what we've committed to deliver in BP2
- Ofgem will tell us how ambitious they think our plans are and how much funding they are going to put in our benchmark vs what is in the plan
- Ofgem will also publish:
  - **Roles Guidance** - expectations of our roles and what we should deliver
  - **ESO Reporting and Incentives (ESORI) guidance** – how our performance in BP2 should be reported to Ofgem and how it will be assessed

# High level timeline to Final Determinations

Ongoing engagement with stakeholders

## Next steps and where we need your support

- Draft Determinations due to land Monday 30<sup>th</sup> November
- We will be engaging with stakeholders and discussing how the outcomes of the draft determinations may impact them throughout early December.
- We encourage you to respond to Ofgem's consultation with your feedback around potential impacts to your organisation, based on the DDs
