

## Draft Final Self-Governance Modification Report

# CMP400: CUSC Non-Section 14 Minor changes update

**Overview:** This CUSC modification aims to make minor amendments to CUSC which sit outside of Section 14.

### Modification process & timetable

**Have 5 minutes?** Read our [Executive summary](#)

**Have 20 minutes?** Read the full [Draft Final Self Governance Modification Report](#)

**Have 30 minutes?** Read the full Draft Final Self Governance Modification Report and Annexes.

**Status summary:** This Report will be submitted to the CUSC Panel for them to carry out their determination vote on whether this change should happen.

**Panel recommendation:** The Panel will meet on 16 December to make their determination vote.

**This modification is expected to have a:** **Low impact:** on all CUSC Signatories and the ESO

**Governance route** Self-Governance modification to proceed to Code Administrator Consultation

**Who can I talk to about the change?**

**Proposer:**  
Rashpal Gata-Aura

## Executive summary

CMP400 modification aims to make minor amendments to CUSC which sit outside of Section 14.

### What is the issue?

During the course of the financial year 2021/2022, several changes needed for CUSC Sections 3, 4, 8 and 11 and the renaming of Exhibit Y have been highlighted by the ESO. These are minor changes to the text, such as capitalising erroneous text and making minor housekeeping changes that have no material impact on the Connection Use of System Code (CUSC) itself. A separate counterpart modification to deal with similar issues in the Charging areas of the CUSC has also been raised and this is CMP399.

### What is the solution and when will it come into effect?

**Proposer's solution:** CUSC non-Section 14 (Charging Methodologies) minor changes update.

**Implementation date:** 3 February 2023

**Panel determination:** The Panel will meet on 16 December 2022 to carry out their determination vote.

### What is the impact if this change is made?

In the Proposer's view **CMP400** modification proposal will have a low impact on CUSC signatories and the ESO if the changes are made.

### Interactions

No interaction with other codes.

## What is the issue?

During the course of the financial year 2021/2022, several changes needed for CUSC Sections 3, 4, 8 and 11 and the renaming of Exhibit Y have been highlighted by the ESO.

These are minor changes to the text, such as capitalising erroneous text and making minor housekeeping changes that have no material impact on the Connection Use of System Code (CUSC) itself. A separate counterpart modification to deal with similar issues in the Charging areas of the CUSC has also been raised and this is **CMP399**.

## Why change?

In the Proposer's view these changes will tidy Sections 3, 4, 8, and 11 and Exhibit Y and provide updates to erroneous referencing and numbering. Raising this modification as one CUSC change presents efficiencies for both the ESO and for industry resource.

## What is the solution?

### Proposer's solution

Please see the table below of the proposed changes:

Current CUSC Reference	Why is change needed?	Type of change
8.22.10 (c)	Amend referencing <b>from</b> EBGL <b>to</b> EBR	Amending acronym
Exhibit Y	Amend referencing <b>from</b> EBGL <b>to</b> EBR	Amend Heading
Section 11 – 3.15.4	Amend erroneous reference	Referencing
4.5.2.3 and 4.5.2.4	Paragraphs 4.5.2.3 and 4.5.2.4 remove duplication	Deletion of duplication
Section 11 (V1.88)	Definition "Dispute Statement" erroneous referencing	Amend definition reference
Section 3 Appendix 2	Spacing change and erroneous indexing	Spacing and indexing

## Legal text

The legal text for these changes can be found in Annex 3.

## What is the impact of this change?

### Proposer's assessment against the Applicable Objectives

#### Proposer's assessment against CUSC Non-Charging Objectives

Relevant Objective	Identified impact
(a) The efficient discharge by the Licensee of the obligations imposed on it by the Act and the Transmission Licence;	<b>Neutral</b> No licence impacts
(b) Facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the sale, distribution and purchase of electricity;	<b>Neutral</b> No impact on competition
(c) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency *; and	<b>Neutral</b> No compliance implications
(d) Promoting efficiency in the implementation and administration of the CUSC arrangements.	<b>Positive</b> This will improve administration of the CUSC by correcting erroneous references

\*The Electricity Regulation referred to in objective (c) is Regulation (EU) 2019/943 of the European Parliament and of the Council of 5 June 2019 on the internal market for electricity (recast) as it has effect immediately before IP completion day as read with the modifications set out in the SI 2020/1006.

### Code Administrator Consultation summary

The Code Administrator Consultation was issued on the 3 November 2022 and closed on 24 November 2022 and did not receive any responses.

## Panel Determination vote

The Panel will meet on 16 December 2022 to carry out their determination vote.

They will assess whether a change should be made to the CUSC by assessing the proposed change and any alternatives against the Applicable Objectives.

**Vote 1:** Does the Original facilitate the objectives better than the Baseline?

Panel Member: **Andrew Enzor**

	Better facilitates AO (a)?	Better facilitates AO (b)?	Better facilitates AO (c)?	Better facilitates AO (d)?	Better facilitates AO (e)?	Overall (Y/N)
Original						
Voting Statement						

Panel Member: **Andy Pace**

**Annexes**

Annex	Information
Annex 1	CMP400 Proposal form
Annex 2	CMP400 Self-Governance Statement
Annex 3	CMP400 Legal Text

<sup>1</sup> If the modification has an impact on Article 18 T&Cs, it will need to follow the process set out in Article 18 of the European Electricity Balancing Guideline (EBGL – EU Regulation 2017/2195) – the main aspect of this is that the modification will need to be consulted on for 1 month in the Code Administrator Consultation phase. N.B. This will also satisfy the requirements of the NCER process.
