

Headline Report – 15 December 2022

Grid Code Review Panel

The Grid Code Review Panel Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Approval of Panel Minutes

The minutes from the Special Panel on 22 November 2022 along with the minutes for the Panel held on 24 November 2022 were approved (subject to the incorporation of minor amendments made by the Panel), these are available on our [website](#).

New Modifications

There were no new Modification Proposals presented to the Panel.

New / Pending Authority Decisions

Ofgem provided an update on Modifications that have been decided upon and are currently awaiting their decision since the last Grid Code Review Panel.

Decisions since last Grid Code Review Panel

Modification	What this seeks to achieve	Decision
GC0160: Grid Code Changes for BSC Mod P448: "Protecting Generators subject to Firm Load Shedding during a Gas Supply Emergency from excessive Imbalance Charges"	The BSC Modification proposes to address the risk of Generators in GB being prevented from generating this winter (due to Load Shedding during a Network Gas Supply Emergency) by allowing such Load Shedding instructions to be settled as Bids. As a result, and to ensure consistency between the BSC and the Grid Code, this Modification seeks to ensure that the actions of the affected party relating to Physical Notifications are aligned.	GC0160 was approved on 6 December 2022 and implemented on 7 December 2022.
GC0141: User Compliance Processes and Modelling following 9th August Power Disruption	The Government (BEIS) and the Regulator (Ofgem) investigated and reviewed the incident on 9th August 2019 when some 1 million customers lost their electricity supply as a consequence of unexpected losses of Generation following a correctly cleared fault event on the Transmission System.	GC0141 WAGCM 14 was approved on 12 December 2022 and will be implemented on 5 January 2023.

Awaiting Decisions

Modification	What this seeks to achieve	Expected Decision Date
GC0148: Implementation of EU Emergency and Restoration Code Phase II	Under the NCER, there are a number of articles which have a completion date of 18 December 2022 and 18 December 2024. The aim of this Modification is to outline the work that needs to be completed within GB to ensure compliance with NCER and address some other related items which neatly fit within the Emergency and Restoration Code arena.	Early January 2023

Ofgem publish a table that provides the expected decision date, or date they intend to publish an impact assessment or consultation, for code modifications/proposals that are with them for decision. This was last updated on 24 November 2022 and is published [here](#).

Prioritisation Stack

The Grid Code Review Panel discussed the latest prioritisation stack, which can be found [here](#).

In flight Modifications

The next Modification Tracker will be published on 09 January 2023.

Workgroup Reports

There were no Workgroup Reports presented to the Panel.

Draft Final Modification Reports

There were no Draft Final Modification Reports presented to the Panel.
