Review Workgroup Report comments

All

Terms of Reference

- Have we addressed them all?

All

CMP376 Terms of Reference V2

Workgroup Term of Reference

- a) Consider EBR implications.
- b) Consider how the ESO communicates its acceptance (or not) of the evidence of milestone completion provided by the User.
- c) Consider how the ESO will monitor User compliance, verify evidence provided by Users, and when action is taken to enact any termination rights.
- d) Consider interaction with other provisions in the CUSC, Construction Agreements and Connection Agreements that deal with project delays and termination of agreements (e.g. Quarterly Updates).
- e) Consider how this is enacted when a User seeks to delay beyond their originally contracted milestone dates i.e. does this lead to automatic termination of any Construction Agreement or is there any scope to delay connection dates. Consider previous work on CAP150 in this regard.
- f) Consider requirement to ensure Construction Agreement Milestones (Appendix J) responsibilities are clearly defined specifically with respect to consents and land rights.
- g) Consider any strategic or regulatory driver behind reallocation of capacity following a termination e.g. Electricity System Restoration Standard.
- h) Consider the route to align Transmission and Distribution agreements for same User connections, including consideration of whose milestones take priority for User compliance.
- i) Consider how other CUSC arrangements may need to change as a result of promoting Users up the queue following a termination of another User (e.g. User Commitment for those Users, who are allowed to advance their connection date).
- j) Clarify any enduring interaction between the CUSC legal text and the ENA Queue Management guidance document.

CMP376 STC Modification?

Next Steps

Paul Mullen – National Grid ESO Code Administrator

Appendix 1: Workgroup Vote

Paul Mullen - National Grid ESO Code Administrator

Can I vote? and What is the Workgroup Vote?

To participate in any votes, Workgroup members need to have attended at least 50% of meetings

Stage 2 – Workgroup Vote

- 2a) Assess the original and WACMs (if there are any) against the CUSC objectives compared to the baseline (the current CUSC)
- 2b) Vote on which of the options is best.
