GSR031Introducing Competitively Appointed Transmission Owners & Transmission Service Providers

Thursday 23 March 2023

Online Meeting via Teams

WELCOME

Workgroup Responsibilities

Catia Gomes– National Grid ESO Code Administrator

Expectations of a Workgroup Member

- Contribute to the discussion
- Be respectful of each other's opinions
- Language and Conduct to be consistent with the values of equality and diversity
- Do not share commercially sensitive information
- Be prepared - Review Papers and Reports ahead of meetings
- Complete actions in a timely manner
- Keep to agreed scope

Your Roles

- Help refine/develop the solution(s)
- Bring forward alternative solutions as early as possible
- Vote on whether the solution(s) better facilitate the Code Objectives

Review of Workgroup Consultation Responses

Catia Gomes – National Grid ESO Code Administrator

Workgroup Consultation

- Responses
  - 2 Non-Confidential Responses
- Applicable Objective better facilitated by Proposal
  - One respondent stated “(i) and (ii).
- Supportive of implementation
  - One respondent supportive
- Commentary
  - One respondent:
  - Supports modification, but advises that the defect in SQSS will only exist when the enabling legislation has been enacted
  - Believes the modification should not be submitted for decision until the relevant enabling legislation has been enacted.

Workgroup Consultation

- Commentary
  - The remaining respondent did not support the modification and raised the following points:
    - Advises that the defect only exists if the enabling legislation is enacted.
    - Advises that the Proposer assumption is that CATOs will be treated as TOs, and in this case introducing the concept to the Legal text is not improving the code, as arrangements to TOs are already there.
    - Raised concerns that the impact assessment only compares the cost of setting up the framework, therefore does not answer the question if competition would actually deliver benefits to consumers relative to TO delivery under the RIIO framework.
    - Suggests adding to Terms of Reference (similar to CM086 and CM087).
    - Suggests reassessing the modification against the code objectives.

Proposer Update

Stephen Baker / Gareth Stanley – NGESO

Review of Terms of Reference

Catia Gomes – National Grid ESO Code Administrator

Workgroup Term of Reference	Location in Workgroup Report (to be completed at Workgroup Report stage)
Consider the transmission licencees definition	
Consider the approach when a CATO is connected to more than one TO	
Consider whether resolving this in the definitions is correct or whether the eight instances in the document should be considered	

Review of Workgroup Report

Catia Gomes – National Grid ESO Code Administrator

Review of Timeline

Catia Gomes– National Grid ESO Code Administrator

Milestone	Date	Milestone	Date
Modification presented to Panel	09 November 2022	Code Administrator Consultation	15 May 2023 to 13 June 2023
Workgroup Nominations	14 November 2022 to 02 December 2022	Draft Final Modification Report (DFMR) issued to Panel	04 July 2023
Workgroup 1 - Discuss proposal and finalise solution, and agree Terms of Reference Workgroup 2 - Refine solution, review consultation questions Showstopper	23 January 2023 10 February 2023 15 February 2023	Panel undertake DFMR recommendation vote	12 July 2023
Workgroup Consultation Workgroup 3 – Review responses Workgroup 4 - Review Workgroup Report, Agreed Terms of Reference have been met, hold Workgroup Vote	20 February 2023 to 10 March 2023 23 March 2023 4 April 2023	Final Modification Report issued to Ofgem	24 July 2023
Workgroup report issued to Panel	02 May 2023	Implementation Date	TBC
Panel sign off that Workgroup Report has met its Terms of Reference	10 May 2023		

POAP for all CATO mods

Grid code | CUSC | STC | SQSS
