# **Codes Summary**

This document provides a summary as to the latest developments, which are happening on the various Industry Codes:

#### **CUSC**

The last CUSC Amendments Panel Meeting took place on Thursday, 25<sup>th</sup> August 2005. The following amendment proposals were discussed at the meeting:

CAP105 (Change of Company Name for National Grid Company plc (NGC)) - The Panel decided that CAP105 should proceed to industry consultation. The consultation report was circulated on 2<sup>nd</sup> September , with a closing date of 3<sup>rd</sup> October 2005.

CAP104 (Amendment to System to Generator Inter-trip related terms concurrently defined in the Grid Code and the CUSC) - The Panel decided that CAP104 should proceed to industry consultation. The consultation report was issued on 30<sup>th</sup> August 2005 with a closing date of 30<sup>th</sup> September 2005.

#### **Credit Cover**

At the August meeting, the Panel decided that CAP089/90/91 should proceed to industry consultation. The consultation report was issued on 2<sup>nd</sup> September with a closing date of 3<sup>rd</sup> October 2005.

#### **Withdrawals**

CAP102 (Security of Supply Filter Mechanism) and CAP096 (Revisions Resulting from Interconnector Separation) have been formally withdrawn. CAP098 (Reassessment of Suppliers Value at Risk) is in the process of being withdrawn.

#### **BSC**

#### **BSC Panel: 8th September 2005**

The Panel approved the draft modification report on **P192** on the Change of Name for the Transmission Company.

Initial Written Assessments were presented on:

#### P193 Improved arrangements for Modification Proposals raised by the Panel

The proposal seeks to amend the existing Code provisions to that the Panel will be able to raise and submit a Modification Proposal directly to Definition, Assessment or Report at the same meeting.

#### P194 Revised Derivation of the 'Main' Energy Imbalance Price

The proposal is aimed targeting the average weighted calculation to provide price signals more appropriate to the prevailing system conditions.

Both proposals have been submitted to 2 Month Assessment period.

#### **Grid Code**

The next GRCP meeting is scheduled to take on Thursday, 22<sup>nd</sup> September 2005.

The LEEMPS consultation has been sent out and Responses required by 7 October.

The inaugural meeting of the Regional Differences working group will be held at Warwick on 16 September. This group will focus initially on the definitions of Small/Medium/Large Power Stations.

It is expected that a Grid Code Consultation associated with changes to OC8B - Safety Coordination in Scotland and Local Safety Instructions in Scotland will be issued shortly after the GCRP meeting on 22 September.

The Authority has approved Grid Code change proposals to replace NGC with NGET. This will be implemented on 30 September.

#### Charging

Use of System Charging Methodology Consultation GBECN01 – Negative Demand Tariffs:-consultation period closed on 31<sup>st</sup> August 2005. National Grid considering their response to the Authority.

Connection Charging Methodology Consultation GBECM01 – Proposal to clarify One Off charges for System to Generator Intertripping Schemes:- consultation period closed on 12<sup>th</sup> August 2005. National Grid currently resolving minor issues identified by Users during the consultation period.

# AMALGAMATED ELECTRICITY CODES AMENDMENT REPORT

# As at 13<sup>th</sup> September 2005

This document contains the Amendment Registers for the CUSC, STC, BSC, TCMF & Grid Code and is correct as of the above date.

TCMF: www.nationalgridinfo.co.uk/charging/mn\_tcmf.html

Grid Code: www.nationalgridinfo.co.uk/grid\_code/mn\_gcrp\_business.html

All documents referred to in the Amendment Register are available on the National Grid STC website.

CA015 Altering the Notification Period for STC Committee Meetings

ProposerNational GridSubmitted17/08/05SubmittedNormalPriority

Amendment Description Current status and progress

This proposal proposed that notice of the STC Committee Meeting and all paperwork (including the agenda) pertaining to the meeting be supplied to Committee Members at a common time. In line with other Industry Codes e.g. CUSC and BSC, it is proposed that this be set as five business days prior to the date of the Committee Meeting.

CA015 was presented and discussed at the August Committee Meeting. National Grid indicated it wished to withdraw CA015 on 24/08/05.

Change of Company Name for National Grid Company plc (NGC) and consequential Amendments to the STC

ProposerNational GridSubmitted12/07/05SubmittedNormalPriority

**Amendment Description** 

**CA014** 

At National Gird Transco's Annual General Meeting (held on 25<sup>th</sup> July), shareholders approved a motion to change the name of the group to that of National Grid plc. with effective from 27<sup>th</sup> July 2005.

Due to the potential similarity between the group name National Grid plc and the holder of the Transmission Licence, National Grid Company plc, at the same time the group name was changed, National Grid Company plc was renamed National Grid Electricity Transmission plc.

This proposal proposes that the definition of NGC currently used within the STC and all occurrences of it within the STC are therefore updated.

#### **Current status and progress**

CA014 was presented to the July Committee Meeting. The Committee decided that CA014 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> August 2005 and comments requested by 16<sup>th</sup> August 2005. The Committee agreed the Amendment Report on 24<sup>th</sup> August 2005. The Amendment Report was submitted to Ofgem on 26<sup>th</sup> August 2005.

#### CA013

#### **TEC Exchange Rate Request Process**

STC - Table of Contents

STC - Table of Contents

Proposer

National Grid

**Submitted** 

18/05/05

**Submitted** Normal

**Priority** 

#### **Amendment Description**

This amendment proposes that the STC be modified to clarify the process to be followed and the obligations on NGC and each Transmission Owner (TO) under the STC to jointly liaise in the preparation of a TEC Exchange Rate. This would occur when a TEC Exchange Rate Request is received from CUSC Parties, one or both of whom is sited in the licensed area or within the boundary of influence of a Transmission Owner.

#### **Current status and progress**

CA013 was presented to the May Committee meeting. The Committee decided that CA013 should proceed to the Assessment & Report Phase. STC Parties to provide their impact and assessment analysis by 5<sup>th</sup> August 2005. Outstanding impact and assessment analysis to be submitted by 2<sup>nd</sup> September.

#### CA012

**Proposer** 

National Grid

#### **Submitted**

12/04/05

Submitted

Normal

**Priority** 

#### **Amendment Description**

Insert Heading I14 and associated wording in the Table of Contents Document.

Recent authority direction in relation to EELPS inserted paragraph I14 into the STC but did not add the corresponding heading into the Table of Contents Document.

#### **Current status and progress**

CA012 was presented to the April Committee meeting. The Committee decided that CA012 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

#### **CA011**

#### **Proposer** National Grid

#### **Submitted**

12/04/05

Submitted Normal

**Priority** 

#### **Amendment Description**

Insert Heading G20 and associated wording in the Table of Contents Document.

Recent authority direction in relation to Schedule 3 inserted paragraph G20 into the STC but did not add the corresponding heading into the Table of Contents Document.

#### **Current status and progress**

CA011 was presented to the April Committee meeting. The Committee decided that CA011 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

CA010

Schedule 3 – Amendment to paragraph 2.5.1

**Proposer** 

National Grid

**Submitted** 

12/04/05

**Submitted** Normal

**Priority** 

#### **Amendment Description**

Reference to 'Construction Agreement' should be amended to 'TO Construction Agreement'.

Amending incorrect terminology within Schedule 3, paragraph 2.5.1

#### Current status and progress

CA010 was presented to the April Committee meeting. The Committee decided that CA010 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

**CA009** 

#### Schedule 3, - Amendment to Paragraph 2.3.2 - Incorrect cross referencing

Proposer Nation

National Grid

Submitted

12/04/05

Submitted

Normal

**Priority** 

#### **Amendment Description**

Cross-reference should be amended to refer to sub-paragraphs 2.4.7(a) - (g), not 2.4.6(a) - (g).

Reference to sub-paragraphs 2.4.6 (a) - (g) will be corrected to read 2.4.7 (a) to (g).

#### **Current status and progress**

CA009 was presented to the April Committee meeting. The Committee decided that CA009 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

**CA008** 

#### Schedule 3 – Amendment to paragraph 2.1.3 (a)

**Proposer** 

National Grid

Submitted

12/04/05

Submitted Priority Normal

#### **Amendment Description**

Reference to 'Construction Agreement' should be amended to 'TO Construction Agreement'.

Amending incorrect terminology within Schedule 3, paragraph 2.1.3 (a).

#### **Current status and progress**

CA008 was presented to the April Committee meeting. The Committee decided that CA008 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

**CA007**

Proposer

National Grid

Submitted

12/04/05

**Submitted** Normal

**Priority** 

#### **Amendment Description**

Sub-paragraph numbering for Section I, paragraph 13.1 starts at 13.1.2 instead of 13.1.

Correction of sub-paragraph numbering of Section I, Paragraph 13.1

#### **Current status and progress**

CA007 was presented to the April Committee meeting. The Committee decided that CA007 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

**CA006** 

#### Section G, paragraph 18.1 – removal of obsolete text.

Proposer

**National Grid** 

Submitted

12/04/05

Submitted

Normal

**Priority** 

#### **Amendment Description**

Removal of obsolete text - 'to the effect that the law governing the place in which such immovable property' - at the end of Section G, paragraph 18.1.

The authority decision letter for STC Housekeeping amendment deleted words from Section G, paragraph 18.1 but did not remove 'to the effect that the law governing the place in which such immovable property'. Resulting in the current paragraph becoming ineffectual.

#### **Current status and progress**

CA006 was presented to the April Committee meeting. The Committee decided that CA006 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

CA005

#### Section J – New Definitions

**Proposer** 

National Grid

**Submitted** 

12/04/05

Normal

#### **Amendment Description**

There are currently no definitions listed for: 'Local Switching Procedure', 'Local Joint Restoration Plan' and 'De-Synchronised Island Procedure'.

The authority decision letter for OC7 and OC9 introduced the following terminology into the STC: Local Switching Procedure, Local Joint Restoration Plan and De-Synchronised Island Procedure but did not provide the relevant definition in Section J.

#### **Current status and progress**

Submitted

**Priority** 

CA005 was presented to the April Committee meeting. The Committee decided that CA005 should proceed to industry consultation. The Proposed Amendment Report was issued on  $9^{\text{th}}$  May 2005 and comments requested by  $16^{\text{th}}$  May 2005. The Committee agreed the Amendment Report on  $25^{\text{th}}$  May 2005. The Amendment Report was submitted to Ofgem on  $27^{\text{th}}$  May 2005. Ofgem approved Amendment Proposal on  $1^{\text{st}}$  July, the change was implemented on  $7^{\text{th}}$  July 2005.

CA004

Section I, Paragraph 1.2, Correction of Typing Error

**Proposer** 

National Grid

Submitted

Submitted

12/04/05

**Submitted** Normal

**Priority** 

#### **Amendment Description**

Section I, Paragraph 1.2 finishes with an end bracket ")" instead of full stop"."

The authority decision letter for SLC C18 introduced within Section 1 subparagraph 1.2 however the legal text finishes the sentence with an end bracket instead of a full stop.

#### Current status and progress

CA004 was presented to the April Committee meeting. The Committee decided that CA004 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

CA003 Introduction of Version Control

Proposer National Grid

12/04/05

Submitted Priority Normal

#### **Amendment Description**

Introduction of version control throughout STC documentation i.e. Sections, and Schedules.

Currently there is no version control of the STC sections and schedules, the introduction of which would assist in the electronic servicing of the STC.

#### **Current status and progress**

CA003 was presented to the April Committee meeting. Amendment was evaluated and an alternative amendment proposed. The Alternative Amendment proposes that to ease interested 'parties' servicing of the code, upon each update of a section of the Code, the entire section should be reissued rather than just the affected pages as proposed by the original CA003. The Committee decided that CA003 and the Alternative Amendment should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved the Alternative Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

CA002

#### Section I, Paragraph 9.1 – Correction of sub-paragraphs numbering

**Proposer** 

National Grid

Submitted

12/04/05

**Submitted** Normal

**Priority** 

#### **Amendment Description**

Sub-paragraph numbering for Section I, paragraph 9.1 starts at 9.1.2 instead of 9.1.1

Correction of sub-paragraph numbering of Section I, Paragraph 9.1 and amend subsequent paragraph numbering and cross referencing accordingly throughout paragraph 9.

#### **Current status and progress**

CA002 was presented to the April Committee meeting. The Committee decided that CA002 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

**CA001** 

#### Section J, Paragraph 1.1 – Correction of Referencing Error

ProposerNational GridSubmitted12/04/05SubmittedNormalPriority

#### **Amendment Description**

Section J, Paragraph 1.1 refers to 'Section I' and requires correction to read 'Section J'.

Correction of referencing error at the beginning of Section J, Paragraph 1.1.

#### **Current status and progress**

CA001 was presented to the April Committee meeting. The Committee decided that CA001 should proceed to industry consultation. The Proposed Amendment Report was issued on 9<sup>th</sup> May 2005 and comments requested by 16<sup>th</sup> May 2005. The Committee agreed the Amendment Report on 25<sup>th</sup> May 2005. The Amendment Report was submitted to Ofgem on 27<sup>th</sup> May 2005. Ofgem approved Amendment Proposal on 1<sup>st</sup> July, the change was implemented on 7<sup>th</sup> July 2005.

All documents referred to in the Amendment Register are available on the National Grid CUSC website.

**CAP105** 

#### **Change of Company Name for National Grid Company plc (NGC)**

**Proposer** National Grid

Submitted 17/08/05

Submitted Priority

Normal

#### **Amendment Description**

It is proposed that the CUSC is amended to reflect the recent Company Name change of National Grid Company plc (NGC) to National Grid Electricity Transmission plc (NGET).

#### **Current status and progress**

CAP105 was presented to the August Panel meeting. The Panel decided that CAP105 should proceed to industry consultation. The consultation report was circulated on  $2^{\text{nd}}$  September , with a closing date of  $3^{\text{rd}}$  October 2005.

**CAP104** 

# Amendments to System to Generator Intertrip related terms concurrently defined in the Grid Code and the CUSC

**Proposer** National Grid

Submitted <sub>17/08/05</sub>

Submitted Priority Normal

#### **Amendment Description**

This amendment proposal seeks to remove the definitions of system to generator Inter-trip categories from the CUSC and replace them with a reference to the Grid Code where they are concurrently defined in an identical manner.

#### **Current status and progress**

CAP104 was presented to the August Panel meeting. The Panel decided that CAP104 should proceed to industry consultation. The consultation report was issued on 30<sup>th</sup> August 2005 with a closing date of 30<sup>th</sup> September 2005.

**CAP103** 

## Flexibility of Working Group Internal Procedures

**Proposer** National Grid

Submitted 21/07/05

Submitted Normal

#### **Amendment Description**

This proposal would provide increased flexibility to the Working Group process by providing the Working Group with the ability to unilaterally alter membership for the period up to the next Amendments Panel, following which the Amendments Panel could either uphold or overturn the Working Group changes of membership.

Furthermore, it proposes that Working Group members are able to agree a three day timetable for the approval of Working Group Reports by the Working Group if all Working Group Members agree to this. However, in the event of no agreement, the standard five day timetable for approval would remain.

#### **Current status and progress**

CAP103 was presented to the July Panel. The Panel determined that CAP103 should be considered by the Governance Standing Group, acting as a Working Group and report back to the September Panel.

## Revision of CUSC Amendment Provisions to allow a Proposer to State whether they believe their Amendment has a Security of Supply Dimension which Means in the View of the Proposer it should be Excluded from the Appeals Mechanism by the Authority

Proposer National Grid Submitted 21/07/05 Submitted Priority

#### **Amendment Description**

Section 8.17 lists the information a Proposer needs to provide in order to table a CUSC Amendment. It is proposed that an additional optional area of information is sought, namely whether in the Proposers view a security of supply issue could arise were their amendment to be delayed by an Appeal and in the Proposers view the Authority should exclude the Amendment from the Appeals Mechanism on security of supply grounds.

#### **Current status and progress**

CAP102 was presented to the July Panel. The Panel determined that CAP102 should be considered by the Governance Standing Group, acting as a Working Group and present their Final Report to the September Panel. National Grid indicated it wished to withdraw CAP102 on 26/08/05 in accordance with the withdrawal process under Paragraph 8.15.8 of the CUSC and this process has now commenced.

Normal

# CAP101 Removal of the Amendments Panel Chairman's Casting Vote – In Context of Amendments Panel Recommendations

Proposer National Grid Submitted 21/07/05 Submitted Priority Normal

#### **Amendment Description**

Following discussions with the GSG, it is proposed that in the event of the Panel making a collective Amendments Panel Recommendation (by whatever means), in the event of a tie, the Amendments Panel Chairman should not have a casting vote. Rather, the fact that there has been a tie should be recorded and the Amendment should be capable of being appealed.

#### **Current status and progress**

CAP101 was presented to the July Panel. The Panel determined that CAP101 should be considered by the Governance Standing Group, acting as a Working Group and present their Final Report to the September Panel. At the August Panel, it was agreed to amalgamate CAP101 with CAP100.

#### Revision of CUSC Amendment Provisions to Ensure that Amendment Reports Include a Collective CUSC Panel Recommendation

**Proposer** National Grid

Submitted 21/07/05

Submitted **Priority** 

#### **Amendment Description**

CUSC Amendment Reports currently contain a Section for Panel Members views to be recorded. However, there is no opportunity for the Amendments Panel to make, and have recorded within the final Amendment Report, a collective recommendation to the Authority as to whether an Amendment proposal (and any Alternative Amendments) in the view of the Amendments Panel, better facilitate the Applicable Code Objectives.

Following discussions with the Governance Standing Group, NGC propose that when an Amendment Report has reached the point at which it would currently go to the Authority (i.e after the Amendments Report has been circulated to the Industry in draft form) it should instead be tabled at the next Amendments Panel.

The Amendments Panel would be required to vote as to whether they believed that the Amendment Proposal, and any Alternatives, better facilitated the Applicable Code Objectives. This vote would be recorded in the Panel Members Views Section. (Clearly Panel Members could abstain should they so wish.) In addition to the vote, any comments that Panel Members wished to have recorded, in relation to their view as to whether a proposal better facilitated the Applicable Code Objectives would also be noted within this section. Following the Amendments Panel Meeting, the Amendment Report, including the Panel Vote and views would be circulated to the Panel for 5 business days, to allow Panel Members a chance to check the factual accuracy of the way in which their views had been recorded. The Amendment Report would at that point be sent to the Authority.

#### **Current status and progress**

CAP100 was presented to the July Panel. The Panel determined that CAP100 should be considered by the Governance Standing Group, acting as a Working Group and present their Final Report to the September Panel. At the August Panel, it was agreed to amalgamate CAP100 with CAP101.

Normal

#### **Incorporation of Additional Credit Management Tools**

**Proposer** Bizzenergy

Submitted 21/07/05

Submitted

Priority Normal

#### **Amendment Description**

This amendment seeks to Modify the CUSC to incorporate provisions to allow the use of:

- 1. A Performance Bond
- 2. Bi-lateral insurance
- 3. Independent Security
- 4. Advanced Payment

Objectives incorporating the Best Practice Guidelines for Network Operator Credit Cover Conclusions Document published in February 2005 by OFGEM.

#### **Current status and progress**

CAP099 was presented to the July Panel. The Panel determined that CAP099 should be considered by a Working Group, and present their Final Report to the September Panel.

#### **CAP098**

#### Reassessment of Suppliers Value at Risk

**Proposer** Bizzenergy

Submitted 21/07/05

Submitted Priority Normal

#### **Amendment Description**

# This amendment seeks to modify the CUSC to provide for monthly reconciliations of Users use against best available data so as to reduce the risks associated with forecasting errors. In addition, it proposes to reduce Security Cover required to reflect increased frequency of reconciliations and reduced Value at Risk

#### **Current status and progress**

CAP099 was presented to the July Panel. The Panel determined that CAP099 should be considered by a Working Group, and present their Final Report to the September Panel.

#### CAP097 Revision to the Contractual Requirements for Small and Medium Embedded Power Stations under 6.5

Proposer National Grid Submitted 21/07/05 Submitted Priority Normal

#### **Amendment Description**

This Amendment Proposal clarifies NGC's requirements from Embedded Small and Medium Power Stations in order to efficiently discharge its obligations imposed through the Transmission Licence and the Act. In setting out the requirements this Amendment Proposal recognises the Grid Code LEEMPS proposal in relation to the NGC/ DNO / Medium Power Station interfaces and seeks to ensure the CUSC processes under CUSC 6.5 are consistent with the requirements of the Grid Code.

This Amendment Proposal therefore includes additional requirements that whilst stand-alone support proposals by the LEEMPS working group under the Grid Code. The Grid Code changes are based on an indirect relationship between NGC and Embedded Medium Power Stations, facilitated via the DNO. The DNO would ensure the Embedded Medium Power Station complies with the relevant requirements of the Grid Code, including the provision of information to allow NGC to assess the impact of an Embedded development on the Transmission System.

#### **Current status and progress**

CAP097 was presented to the July Panel. The Panel determined that CAP097 should be considered by a Working Group and present their Final Report to the October Panel.

**CAP096** 

#### **Revisions Resulting from Interconnector Separation**

Proposer National Grid

Submitted 21/07/05

Submitted Priority Normal

#### **Amendment Description**

The amendment removes certain provisions in the CUSC relating to the French Interconnector. This is currently part of National Grid Company plc (NGC), but is in the process of being transferred into a separate legal entity, NGT Interconnectors Ltd (NGTIL), as part of the process of interconnector licensing. Once this separation has occurred, it will be appropriate to amend the CUSC to reflect the consequential effects of separation on the CUSC obligations relating to the roles of Interconnector Error Administrator and Interconnector Owner.

#### **Current status and progress**

CAP096 was presented to the July Panel. The Panel determined that CAP096 should proceed directly to wider industry consultation. The Consultation Document was issued on 5/08/05. The Consultation will close on 2/09/05. National Grid indicated it wished to withdraw CAP096 on 26/08/05 in accordance with the withdrawal process under Paragraph 8.15.8 of the CUSC and this process has now commenced.

#### CAP095 Removal of Operational Day Reference from Ex Post Publication of Response Information

Proposer National Grid Submitted 15/06/05 Submitted Priority Normal

#### **Amendment Description**

CAP095 will align the timeframes for the publication of ex ante and ex post information on mandatory frequency response on a calendar basis in preparation for the implementation of CAP047 on 1<sup>st</sup> October 2005.

#### **Current status and progress**

The Panel agreed that CAP095 should go straight to industry consultation. The Consultation opened on 06/07/05 and will close on 5/08/05. The Amendment Report was submitted to Ofgem on 19/08/05.

#### **CAP094**

## **Limited Duration Transmission Entry Capacity**

Proposer First Hydro Submitted 15/06/05 Submitted Priority Normal

#### **Amendment Description**

CAP094 seeks to introduce a new access product – Limited Duration Transmission Entry Capacity (LDTEC). The current access products do not embrace circumstances where TEC is available for the remainder of the financial year but NGC is not able to grant enduring TEC because of the time taken to analyse a proposal or future rights not being available. The new product would also extend to circumstances where the generator only requires TEC for the remainder of the financial year and does not require enduring TEC rights.

#### **Current status and progress**

The Panel agreed that CAP094 should be considered by a Working Group reporting back to the August Panel. The Panel agreed to an extension of the working group consideration of one month and that the Working Group Report should be presented to the September Panel meeting.

# CAP093 Enabling the Flow of Electricity From Distribution Systems Into the Transmission System at Grid Supply Points

Proposer Central Networks Submitted 15/06/05 Submitted Priority Normal

#### **Amendment Description**

CAP093 aims to recognise the flow of electricity from distribution systems into the transmission system at Grid Supply Points. This will be achieved by altering the CUSC definitions of Grid Supply Point and Distribution System, and by making any necessary consequential changes.

#### **Current status and progress**

The Panel agreed that CAP093 should be considered by a Working Group reporting back to the September Panel.

Date of Issue: 2<sup>nd</sup> September 2005

Page 6

#### CAP092 Consistent Generation Use of System Charge Liability Provisions for Transmission Access Products.

Proposer e.on Submitted 15/06/05 Submitted Priority

#### **Amendment Description**

CAP092 seeks to cap the charges payable for STTEC and/or TEC in any one financial year to that which would have been paid for TEC alone. The proposer argues that paying more for tranches of STTEC compared to what would have been paid in annual TEC charges is an unintended consequence of the introduction of the product. The proposer argues that this gives rise to discrimination and thus adverse effects on competition.

#### **Current status and progress**

The Panel agreed that CAP092 should be considered by a Working Group reporting back to the August Panel. At the August Panel Meeting, it was agreed that the Working Group Report should be presented to the September Panel meeting.

# CAP091 Establishment and maintenance of an Unsecured Credit Allowance for Rated and Unrated Companies and the alignment of the Value at Risk calculation with current best practice.

ProposerBizzEnergySubmitted<br/>Priority20/05/05Submitted<br/>PriorityNormal

#### **Amendment Description**

This amendment seeks to Modify the CUSC to incorporate provisions for unrated companies to establish an appropriate line of credit in accordance with the CUSC Objectives taking account of the Best Practice Guidelines for Network Operator Credit Cover Conclusions Document published in February 2005 by OFGEM.

For example it is anticipated that at a high level the modification should include amongst other things:

- 1. Establish an unsecured credit allowance for unrated counterparties by using the payment record.
- Where a company rated in the lower bands or an unrated counterparty seeks to increase its unsecured credit allowance it can do so by submitting to independent assessment of its creditworthiness.
- 3. Recalculation of the Demand Reconciliation Credit Cover amount of 10%.

#### **Current status and progress**

CAP091 was presented to the May 2005 Panel. The Panel determined that CAP091 should be considered by a Working Group reporting back to the August 2005 Panel. The Working Group presented their Final Report to the August Panel. The Panel determined that CAP091 should proceed to wider industry consultation. The consultation report was circulated on 2<sup>nd</sup> September, with a closing date of 3<sup>rd</sup> October 2005.

Date of Issue: 2<sup>nd</sup> September 2005

#### **Credit Limits for rated companies**

Proposer National Grid

**Submitted** 20/05/05

Submitted Priority

Normal

#### **Amendment Description**

The amendment seeks to address and codify Ofgem's recommendations within its Network Operator Best Practice guidelines.

This amendment would introduce the rules of establishing individual user limits based on a percentage of the maximum credit limit.

CAP:089 proposed that the CUSC should set a maximum credit limit based on 2% of Regulatory Asset Value of an individual Network Operator. This proposal is that individual counterparty credit limits and those that use Parent Company Guarantees or aggregates of both, should be set using credit ratings applied under the 'Basel 2' rules for determining bank capital adequacy. The implication is that the maximum credit allowances of 100 percent of maximum credit limit for AAA/AA and 40 percent for A. For the third band, (BBB) NGC proposes, consistent with Ofgem's guidelines, that the above allowance be further subdivided, such that the following are applied to rated entities:

#### **Current status and progress**

CAP090 was presented to the May 2005 Panel. The Panel determined that CAP090 should be considered by a Working Group reporting back to the August 2005 Panel. The Working Group presented their Final Report to the August Panel. The Panel determined that CAP090 should proceed to wider industry consultation. The consultation report was circulated on  $2^{\rm nd}$  September , with a closing date of  $3^{\rm rd}$  October 2005.

#### **Maximum Unsecured Credit Limit**

Proposer National Grid

Submitted

20/05/04

20/05/05

Submitted Normal

#### **Amendment Description**

The amendment seeks to address and codify Ofgem's recommendations within its Network Operator Best Practice guidelines.

It is proposed that that Network Operators should set a maximum credit limit based on 2% of Regulatory Asset Value. Currently there is no unsecured credit limit within CUSC if a user has NGC credit rating (A- or A3 respectively as set by Standard and Poor's or Moody's for connection charges, BBB- or Baa3 respectively as set by Standard and Poor's or Moody's for Use of System charges). CUSC will require amending in order to implement the criteria for setting the maximum credit limit.

#### **Current status and progress**

CAP089 was presented to the May 2005 Panel. The Panel determined that CAP089 should be considered by a Working Group reporting back to the August 2005 Panel. The Working Group presented their Final Report to the August Panel. The Panel determined that CAP089 should proceed to wider industry consultation. The consultation report was circulated on 2<sup>nd</sup> September, with a closing date of 3<sup>rd</sup> October 2005.

#### **CAP088**

#### Application of late payments of Commercial Debts (Interest) Act 1998

Proposer National Grid

Submitted

Submitted Normal

#### **Amendment Description**

The amendment seeks to address and codify Ofgem's recommendations within its Network Operator Best Practice guidelines.

Clause 6.6.5 states the rate of 4% over base rate, accrued daily, can be levied on any CUSC party that fails to pay on the due date any amount properly due.

This amendment is proposed in order to allow the application of the late payment of Commercial Debts (Interest) Act 1998. This would act as an additional incentive to ensure that payments are made in accordance with prevailing contracts, as it allows for interest to be levied on late paid items at a rate equal to a specified base rate plus eight percentage points per annum. This rate is set twice a year on 30 June and 31 December each year. This rate is applicable for the following six-month periods i.e. 1July to 31 December and 1 January to 30 June respectively.

#### **Current status and progress**

CAP088 was presented to the May 2005 Panel. The Panel determined that CAP088 should be considered by a Working Group reporting back to the August 2005 Panel. The consultation report was issued on 5<sup>th</sup> August 2005, with a closing date of 2<sup>nd</sup> September 2005.

#### **Revisions to Request for Urgency Process**

**Proposer** British Gas Trading

Submitted 13/04/05

4/05

Submitted Normal

#### **Amendment Description**

CAP087 seeks to amend Section 8.21 of the CUSC, which details the process for requesting that an Amendment Proposal be treated urgently. Section 8.21.3 states that the Panel Chairman or Panel Secretary will only consult with the Authority if the Amendments Panel or a majority of the Amendments Panel agrees that the proposal should be treated urgently. This Amendment Proposal would extend that obligation on the Panel Chairman to consult with the Authority on all requests for urgency.

#### **Current status and progress**

CAP087 was presented to the April Panel meeting. The Panel decided that CAP087 should proceed to industry consultation. The consultation report was issued on 27<sup>th</sup> April 2005. The Amendment Report was submitted to Ofgem on 13/6/05. The Authority approved CAP087 on 15<sup>th</sup> July 2005, for implementation on 29<sup>th</sup> July 2005.

#### **CAP086**

#### **Proposal for Earlier Consideration of Implementation Dates**

Proposer E.ON UK plc

Submitted 13/04/05

Submitted Priority Normal

#### **Amendment Description**

CAP086 seeks to introduce a requirement on NGC to consult CUSC Users regarding Implementation Dates for CUSC Amendment Proposals earlier during the consultation arrangements.

NGC are already required to include details of implementation timescales within each CUSC Amendment report. However, CAP086 would specify an obligation within section 8 of the CUSC for NGC to consult CUSC Users regarding such dates. It is proposed that consultation on the Implementation Date will form part of the Amendment Consultation.

The Proposer believes that the Implementation Date is a fundamental aspect of any Amendment Proposal, which can have significant commercial impacts upon CUSC Parties. As such, the Implementation Date should be subject to the same level of rigour and scrutiny as the proposal itself. The Proposer believes that CAP086 is consistent with both the requirements of the current licence conditions and the recent Ofgem decision for CAP077.

#### **Current status and progress**

CAP086 was presented to the April Panel meeting. The Panel decided that CAP086 should proceed to industry consultation. The consultation report was issued on 27<sup>th</sup> April 2005. The consultation closed on 27<sup>th</sup> May. Consultation Alternative Amendments have been received and therefore a further consultation will be conducted. A further consultation on two Consultation Alternative Amendments closed on 29<sup>th</sup> June. The Amendment Report was submitted to Ofgem on 30<sup>th</sup> June. Ofgem approved Amendment Proposal on 18<sup>th</sup> August 2005 for implementation on 2<sup>nd</sup> September.

#### **Revised Treatment of Housekeeping Amendments**

**Proposer** National Grid

Submitted 13/04/05

Submitted Normal

#### **Amendment Description**

CAP085 would provide for a more efficient, lighter touch approach, to the progressing of Housekeeping Amendments. It is proposed that where such proposals have been raised, the CUSC Panel will agree whether or not they believe such Amendments are in fact Housekeeping (in accordance with the new definition of "Housekeeping Amendment," in the CUSC.)

NGC will publish the proposed Housekeeping Amendments on the CUSC Industry Information Website for 5 business days, prior to writing to Ofgem requesting that the Housekeeping Amendments be approved.

The Authority will take the final executive decision as to whether or not to approve the Amendments based on the normal criteria as to whether or not they believe the proposal better facilitates the relevant applicable objectives.

#### **Current status and progress**

CAP085 was presented to the April Panel meeting. The Panel decided that CAP085 should proceed to industry consultation. The consultation report was issued on 27<sup>th</sup> April 2005. A further consultation was conducted on a Consultation Alternative Amendment with a closing date of 15<sup>th</sup> June 2005. The Amendment Report was submitted to Ofgem on 23/6/05. Ofgem approved Amendment Proposal on 4<sup>th</sup> August 2005, the change was implemented on 17<sup>th</sup> August 2005.

#### CAP047 Introduction of a competitive process for the provision of Mandatory Frequency Response

ProposerInnogy plcSubmitted11/3/03Submitted<br/>PriorityNormal

#### **Amendment Description**

This amendment seeks to facilitate competition in the provision of Frequency Response services by increasing transparency and providers' ability to vary prices. The proposed amendment has three elements:

- (1) Revision of the provisions regarding the right to amend payment rates such that the User can submit 'holding' prices to be applied in each calendar month for each mandatory frequency response service (Primary, Secondary and High). Such submissions to be made by the 15<sup>th</sup> business day of the month prior to month in which the prices shall apply; (2) A requirement for NGC to publish market data describing prices and volumes of frequency response services procured in previous months, submitted prices for each service by BMU, and their future requirements for the service;
- (3) Lifting of the cost reflective charging principle as currently applied to the 'holding' payments.

#### **Current status and progress**

CAP047 was presented at the Amendments Panel meeting on 21/3/03. The Panel actioned the BSSG to act as a Working Group to consider CAP047 further and report back to the June CUSC Panel meeting. The CAP047 Working Group Report was considered at the June Panel meeting. The Panel determined that the Working Group had met its Terms of Reference and that CAP047 could proceed to wider industry consultation by National Grid. A consultation paper was issued on 4<sup>th</sup> July and the consultation period closed on 20<sup>th</sup> August. The Amendment Report was submitted to the Authority on Thursday 4<sup>th</sup> September. National Grid supports Alternative Amendment (B). The Authority approved Alternative Amendment A on 28<sup>th</sup> September. NGC applied for an extension of the implementation date from 1<sup>st</sup> October 2004 to 1<sup>st</sup> October 2005 and this was approved by the Authority on 30<sup>th</sup> September.

## P 192 Change of Name of the Transmission Company.

Proposer John Greasley
Organisation NATIONAL GRID

**Raised** 27/07/2005

September 2005

N/A

Process NORMAL

Authority Report Date

Modification Group **Modification Description** 

A motion was submitted to the Annual General Meeting of the Transmission Company held on 25th July proposing to change the Company name from "National Grid Company plc" to "National Grid Electricity Transmission plc". The motion also amended the Group Company name to "National Grid plc" (formerly "National Grid Transco plc"). The motion was approved by shareholders and the changes took effect legally on 27th July. The rationale behind the change is that, in the light of the name of the Group Company becoming "National Grid plc", the name of the Transmission Company as a subsidiary company within the Group should also be amended to avoid any potential confusion between the two entities. The definition of the Transmission Company should consequently beamended in the BSC to align with the new legal name of the Company. The registered number of the company is unchanged.

**Current progress** 

At its meeting of 11 August 2005 the BSC Panel determined that P192 should be submitted directly to the Report Phase with a provisional recommendation that P192 should be made with an Implementation Date of 5 Working Days after an Authority decision is made. The P192 draft Modification Report will be submitted to the Panel at its meeting of 08 September 2005.
