

STCP Amendment Proposal Form

PA013

1. Title of Amendment Proposal

STCP 18-6 – Incorporation of Outstanding Change Requests

2. Description of the Proposed Amendment (mandatory field)

Incorporation of the following Change Requests that were outstanding at BETTA Go-Live:

C214, C223.

These Change Requests are attached at Attachment 1 to this STCP Amendment Proposal Form.

Minor changes to the Headers and Footers within the document are also proposed. These changes serve to ensure that the name of the STCP and its Issue Number and date are clearly visible on all pages.

The following text has also been inserted before each of the Flow Diagrams within the STCPs clarifying that the text of the STCP has precedence in the event there is any disparity between the text and the flow diagrams:

“Note that the Process Diagrams shown in this Appendix [B] are for information only. In the event of any contradiction between the process represented in this Appendix and the process described elsewhere in this STCP, then the text elsewhere in this STCP shall prevail.”

This statement was included in some but not all STCPs during drafting and its inclusion here allows a consistent approach to be taken across all STCPs.

All of the above changes are reflected within the change-marked STCP attached as Attachment 2 to this STCP Amendment Proposal Form.

3. Description of Issue or Defect that Proposed Amendment seeks to Address (mandatory field)

Prior to Go-Live a number of changes to “signed off” STCPs were identified by the User Groups. The incorporation of these Change Requests before Go-Live was not however deemed by the same User Groups as critical for Go-Live and it was agreed between the Parties that such Change Requests should be considered and where appropriate incorporated within the STCP following Go-Live. This STCP Amendment Proposal therefore summarises the outstanding Change Requests for this STCP and outlines draft legal text that would give effect to those outstanding Change Requests.

4. Impact on the STC (information should be given where possible)

Effects on STCP 18-6 Variation to Agreements Issue 001 are as detailed in the Change Marked version attached at Attachment 2 to this STCP Amendment Proposal.

5. Impact on other frameworks e.g. CUSC, BSC (information should be given where possible)

NONE

6. Impact on Core Industry Documentation (information should be given where possible)

NONE

<p>7. <u>Impact on Computer Systems and Processes used by STC Parties</u> (information should be given where possible)</p> <p>NONE</p>
<p>8. <u>Details of any Related Modifications to Other Industry Codes</u> (where known)</p> <p>NONE</p>
<p>9. <u>Justification for Proposed Amendment with Reference to Applicable STC Objectives</u> (mandatory field)</p> <p>Although these changes were not deemed as critical for Go-Live it is the view of the proposer that should these Change Requests now be incorporated within STCP 18-3 this would better facilitate the following Applicable STC Objectives:</p> <ul style="list-style-type: none"> • the development, maintenance and operation of an efficient, economical and co-ordinated system of electricity transmission • protection of the security and quality of supply and safe operation of the GB Transmission System insofar as it relates to the interactions between transmission licensees • promotion of good industry practice and efficiency in the implementation and administration of the arrangements described in the STC.

<p>Details of Proposer Organisation's Name</p>	National Grid Company plc
<p>Capacity in which the Amendment is being proposed (i.e. STC Party or other Party as designated by the Authority pursuant to STC section B7.2.2.1 (b))</p>	STC Party
<p>Details of Proposer's Representative Name Organisation Telephone Number Email Address</p>	<p>Mark Duffield National Grid Company plc 01926 654971 mark.duffield@ngtuk.com</p>
<p>Details of Representative's Alternate Name Organisation Telephone Number Email Address</p>	<p>Ben Graff National Grid Company plc 01926 656368 Ben.Graff@ngtuk.com</p>
<p>Attachments (Yes/No): Yes If yes, title and number of pages of each attachment: Attachment 1 (xx Pages): Original Change Requests Attachment 2 (xx Pages): Revised legal text for STCP 18-6: Variation to Agreements</p>	

Notes:

1. Those wishing to propose an Amendment to the STC should do so by filling in this "Amendment Proposal Form" that is based on the provisions contained in Section 7.2 of the STC.
2. The Committee Secretary will check that the form has been completed, in accordance with the requirements of the STC, prior to submitting it to the Committee. If the Committee Secretary accepts the Amendment Proposal form as complete, then she/he will write back to the Proposer informing them of the reference number for the Amendment Proposal and the date on which the Committee will consider the Proposal. If, in the opinion of the Committee Secretary, the form fails to provide the information required in the STC, then he/she may reject the Proposal. The Committee Secretary will inform the Proposer of the rejection and report the matter to the Committee at their

next meeting. The Committee can reverse the Committee Secretary's decision and if this happens the Committee Secretary will inform the Proposer.

The completed form should be returned to:

Lilian Macleod
STC Committee Secretary

Following table should be filled in for every available related document.

Category 2 Document		Internal Consistency			Version		
Id	Sect	Comment	Cat	Type	Sevty	Effort	Proposed/Agreed Action
1	1.1.1 and 3.4.1	Three terms are used: Bilateral Agreement, Bilateral Embedded Agreement and Bilateral Connection Agreement. Bilateral Agreement is used collectively to describe the other two. Replace the other two with this term where they are used together.	C	F	L	L	Proposed Action: Update in next issue of document Agreed Action: where both Bilateral Connection Agreement and Bilateral Embedded Generation Agreement are used together, replace them with "Bilateral Agreement"
2	1.2.1	There are no TO~TO interfaces in this procedure.	I	D	L	L	Proposed Action: Update in next issue of document Agreed Action remove reference to TO-TO interface
3	1.3.2 to 1.3.4	These paragraphs are repeated in sections 3.1.1 to 3.1.3. I believe these are part of the procedure so should be removed from this section.	C	F	L	L	Proposed Action: Update in next issue of document Agreed Action: Remove 1.3.2 to 1.3.4
4	1.3.1	Section 1.1.1 separates out the three variation types whereas the Background section implies that TOCA/CSS amendments are the trigger to the procedure. Suggest the following wording replaces the first sentence in 1.3.1 "There are a number of circumstances which may require an amendment to the agreements listed in Section 1.1.1"	I	D	L	L	Proposed Action: Update in next issue of document Agreed Action: agree, replace with suggested wording
5	Section 4	There is no text under the Disputes section. Add similar text as in other STCPs if there are no special dispute processes.	C	F	L	L	Proposed Action: Update in next issue of document Agreed Action: there are no special dispute processes. Therefore use similar text as in other STCPs

Category 2 Document		Internal Consistency			Version		
Id	Sect	Comment	Cat	Type	Sevty	Effort	Proposed/Agreed Action
6	Section 5	Remove the paragraph for Standard Forms/Certificates as there are none. Alternatively add "None".	C	F	L	L	Proposed Action: Update in next issue of document Agreed Action: There are no new forms/certificates for 18-3 that aren't already used in 18-1, 19-2 etc. Suggest Appendix A is removed and remaining appendices are re-numbered
7	Definitions	The following terms are not used within the procedure: Applicant Connection Charges Suggest the terms Affected Party, Affected Party's Work and Defaulting Party are distinguished with the following – "Defined within Schedule 9 paragraph 3.2). This would then distinguish the term from that used in the procedure. I would also suggest further explaining that the term "Affected Party" as defined in Schedule 9 para.3.2 is termed STC Schedule 9 Affected Party in this procedure	C	F	L	L	Proposed Action: Update in next issue of document Agreed Action: Remove 'Applicant' and 'Connection Charges'. Also add suggested distinguishing text
8	Swim Lane	The swim lane has not been updated from the Level 2 process. I attach my version:  Swim Lane STCP18-6	I	D	L	L	Proposed Action: Update in next issue of document Agreed Action: Replace with this version. One minor edit suggested: insert "TO" before "Termination Notice" in 1 st NGC box on pg 1 of swim lane

<u>Issue 001</u>	<u>24/02/2005</u>	<u>BETTA Go-Live Version</u>
<u>Issue 002</u>	<u>26/05/2005</u>	<u>Issue 002 incorporating PA013</u>

1 Introduction

1.1 Scope

~~1.1.1~~ This procedure sets out the process for the exchange of information between Parties to enable:

- NGC to vary a Bilateral ~~Connection Agreement or Bilateral Embedded Generation~~ Agreement at any time;
- NGC to vary a Construction Agreement prior to the Completion Date; or
- a TO to vary a TO Construction Agreement or update the Connection Site Specification.

1.1.2 This procedure applies to variations to agreements allowed under the terms of the STC, CUSC and ad-hoc changes to agreements.

1.1.3 This procedure defines the tasks, formal documentation, interface requirements, timescales and responsibilities required of National Grid Company (NGC), the Host Transmission Owner (Host TO), Affected Transmission Owner(s) (Affected TO(s)) and Other Affected TO(s). It applies from receipt of a notification from any Party that a Bilateral Agreement, Construction Agreement, TO Construction Agreement or Connection Site Specification needs amending to the modification of such agreements or documents.

1.1.4 This procedure applies to NGC and each TO. For the purpose of this document, TOs are:

- SPT; and
- SHETL.

1.2 Objectives

1.2.1 The objective of this procedure is to detail how the variation to agreements process will be addressed across the NGC ~~~ TO interface and the TO ~ TO interface~~ TO interfaces to enable the Parties to discharge their responsibilities under the STC and to ensure that their responsibilities are clear.

1.3 Background

1.3.1 There are a number of circumstances which may require an amendment to the ~~TO Construction Agreement/Connection Site Specification~~ agreements listed in Section 1.1.1. These include, inter alia:

- Changes to Programme and works:
 - a newly signed TO Construction Offer;
 - a TEC increase notification;
 - a TEC decrease notification; or
 - the termination of a Bilateral Agreement or early termination of a Construction Agreement;
- Delays to Programme and works:
 - Consents driven changes (in accordance with STC Schedule 9, 2.4.2); or
 - delays to programme and works (as specified in STC Schedule 9, 3.2).
- changes to technical design or operational criteria forming part of a TO Construction Agreement or Connection Site Specification; and
- ad-hoc request for modifications by Users/NGC/TO where Parties agree that a Modification Application is not required.

~~1.3.2 NGC shall notify the Affected Parties when a User has signed an Offer by sending them an updated Scheme Briefing Note in accordance with STCP 18-1 Connection and Modification Application, STCP 18-2 Use of System Application or STCP 18-3 TEC Changes (in the case of a TEC increase).~~

~~1.3.3 In the case of a TEC decrease, NGC shall notify the relevant Parties when the decrease has been effected in accordance with STCP 18-3 TEC Changes.~~

~~1.3.4 In the event of the termination of a Bilateral Agreement or the early termination of a Construction Agreement, NGC shall issue a TO Termination Notice to the Affected Parties in accordance with STCP 19-2 Construction Process and Scheme Closure.~~

2 Key Definitions

2.1 For the purposes of STCP 18-6:

2.1.1 **Affected Parties** means the Host TO, Affected TO(s) and Other Affected TO(s) as appropriate, involved in producing TO Construction Offers relating to a particular User Application.

2.1.2 **Affected TO(s)** means any Transmission Owner in relation to whose Transmission System the Relevant Connection Site satisfies the criteria set out in the STC, Schedule Four. (see STC Section D, part 2, paragraph 2.2.2).

2.1.3 **Host TO** means the Transmission Owner, whose Transmission System is located at the Relevant Connection Site. (see STC Section D, part 2, paragraph 2.2.1).

2.1.4 **STC Schedule 9 Affected Party** means Affected Party as defined in STC Schedule 9 (this differs from Affected Parties as defined in 2.1.1).

3 Procedure

3.1 Consideration of Change

3.1.1 NGC shall notify the Affected Parties when a User has signed an Offer by sending them an updated Scheme Briefing Note in accordance with STCP 18-1 Connection and Modification Application, STCP 18-2 Use of System Application or STCP 18-3 TEC Changes (in the case of a TEC increase)

3.1.2 In the case of a TEC decrease, NGC shall notify the relevant Parties when the decrease has been effected in accordance with STCP 18-3 TEC Changes.

3.1.3 In the event of the termination of a Bilateral Agreement or the early termination of a Construction Agreement, NGC shall issue a TO Termination Notice to the Affected Parties in accordance with STCP 19-2 Construction Process and Scheme Closure.

3.1.4 The Affected Parties shall, as soon as reasonably practicable, assess the effect of the accepted TO Construction Offer/TEC Decrease notification/TO Termination Notice on the Transmission Connection Asset Works, Transmission Reinforcement Works, One Off Works and Third Party Works of all relevant existing TO Construction Agreement(s) or, where there is no TO Construction Offer, they shall assess the effect on the relevant technical design or operational criteria previously notified by the Affected Parties to NGC.

3.1.5 The Affected Parties shall discuss with NGC any identified effects and issues resulting from the assessment carried out under section 3.1.4. The Affected Parties shall notify NGC in writing of any required amendments to the affected agreement(s) or documents that affect Users. NGC shall amend such agreements/documents as appropriate.

- 3.1.6 NGC shall inform the Affected Parties as soon as reasonably practicable after NGC has notified the User(s) of the changes to the relevant Construction Agreement(s) or Bilateral Agreement(s).

3.2 Delays to Programme and Works

- 3.2.1 As soon as any of the Affected Parties becomes aware of the need to amend Transmission Construction Works because of a Consents driven change(s), that Affected Party shall make revisions to the relevant Appendices of the TO Construction Agreement that include such Transmission Construction Works and any related charges and inform NGC as soon as reasonably practicable.
- 3.2.2 Within 28 days of an STC Schedule 9 Affected Party becoming aware of an occurrence as allowed for under STC Schedule 9, 3.2, giving rise to a delay in carrying out any of the STC Schedule 9 Affected Party's Works they shall notify the Defaulting Party in writing of such occurrence together with an estimate of the proposed delay which it will cause the STC Schedule 9 Affected Party. Once the new date(s) are fixed the TO Construction Programme and/or TO Commissioning Programme shall be deemed automatically amended as appropriate.

3.3 Changes to technical design or operational criteria forming part of the TO Construction Agreement or Connection Site Specification

- 3.3.1 If a TO wishes to change the technical design or operation criteria that form part of the TO Construction Agreement or the Connection Site Specification (as appropriate), the TO shall notify NGC as soon as reasonably practicable. The notice shall include the amendments that the TO considers to be required and the reasons why the TO considers the modification is required.
- 3.3.2 If required NGC shall request further detail/clarification from the TO.
- 3.3.3 NGC shall issue a Modification Notification to the User if the change notified to NGC under section 3.3.1 requires a change to Appendices F1, F3 or F5 to the relevant Bilateral Connection Agreement, or Appendices F1, F3, F4 or F5 to the relevant Bilateral Embedded Generation Agreement. If a User submits a Modification Application to NGC as a result of the Modification Notification, NGC shall issue a NGC Construction Application to the Affected Parties and STCP18-1 Connection and Modification Application process will be followed. Where a User is not required to submit a Modification Application then NGC and the Affected Parties shall discuss and agree the process and timetable for considering, agreeing and documenting the required changes to the relevant TO Construction Agreement or Connection Site Specification, as appropriate.
- 3.3.4 Where a User wishes to change Appendices F1, F3 or F5 to the relevant Bilateral Connection Agreement, or Appendices F1, F3, F4 or F5 to the relevant Bilateral Embedded Generation Agreement, it may, at any time, submit a Modification Application to NGC. On receipt of that application the process detailed in STCP18-1 Connection and Modification Application shall be followed from step 3.1.1.
- 3.3.5 If the change notified by the TO to NGC under section 3.3.1 results in the need to change Appendix F4 of the relevant Bilateral Connection Agreement, or the User wishes to change Appendix F4 to the relevant Bilateral Connection Agreement, NGC and the Affected Parties shall discuss and agree the process and timetable for considering, agreeing and documenting the required changes to the relevant TO Construction Agreement or Connection Site Specification, as appropriate. Parties agree that such discussions shall take place and agreement reached within 5 days of receipt of the change notification.

3.4 Ad-hoc request for modifications by Users/NGC/TO where Parties agreed a Modification Application is not required

- 3.4.1 Where a User or NGC requests a change to ~~the Bilateral Connection Agreement, Bilateral Embedded Generationa Bilateral~~ Agreement or Construction Agreement which requires a modification to a TO Construction Agreement or Connection Site Specification, NGC and the Affected Parties shall discuss and agree whether this can be achieved without a Modification Application and if so the process and timetable for considering, agreeing and documenting the changes to the relevant TO Construction Agreement or Connection Site Specification.
- 3.4.2 Where a TO requests a change (other than those ~~previously~~previously covered in sections 3.1 to 3.3) to a TO Construction Agreement or Connection Site Specification, NGC will discuss the impact with the User prior to agreeing a process and timetable with the TO and any Affected TO for considering, agreeing and documenting the changes to the relevant TO Construction Agreement or Connection Site Specification.

Appendix B: Flow Diagram

4 Nuclear Site Licence Provisions

4.1 General

4.1.1 When following this process where this may interact with, impact upon or fall within the boundary of a Nuclear Site Licence holder's site, or may otherwise have any form of affect and/or implication for a nuclear power station, consideration must be given to the relevant provisions of the applicable Nuclear Site Licence Provisions Agreement, the CUSC Bilateral Connection Agreement for that site, paragraph 6.9.4 of the CUSC and Section G3 of the SO/TO Code to ensure compliance with all of these obligations.

Appendix A: Flow Diagram

Note that the Process Diagrams shown in this Appendix are for information only. In the event of any contradiction between the process represented in this Appendix and the process described elsewhere in this STCP, then the text elsewhere in this STCP shall prevail.
