

STCP Amendment Proposals

An Accompanying Paper for the STC Committee

1.1 *Executive Summary*

1.1.1 This paper accompanies the STCP Amendment Proposals (PA005 to PA017) circulated to the May STC Committee.

1.1.2 These STCP Amendment Proposals cover two categories of STCPs. The first are those STCPs that have already been incorporated into Schedule 2 of the STC. The STCP Amendment Proposals presented for these STCPs propose that the outstanding Change Requests that were not implemented before BETTA Go-Live are incorporated. The Change Requests that are proposed to be incorporated have been agreed by the relevant User Group members. The STCPs that fall into this category for the May STC Committee are as follows:

STCP Amendment Proposal	STCP
PA005	STCP 11-3 Outage Change Costing
PA006	STCP 08-1 Protection Testing
PA007	STCP 08-2 Circuit Live Trip and DAR Testing
PA008	STCP 08-3 Operational Tests and System Tests
PA009	STCP 08-4 User Tests
PA010	STCP 11-1 Outage Planning
PA011	STCP 11-2 Outage Data Exchange
PA012	STCP 18-3 TEC Changes
PA013	STCP 18-6 Variations to Agreements
PA016	STCP 19-2 Construction Process and Scheme Closure

1.1.3 The second category of STCP are those that have not yet been incorporated into Schedule 2. The drafting of these STCPs was not deemed critical for Go-Live and as such was delayed with interim arrangements for the processes these STCPs were to cover being set out in a Memorandum of Understanding between the STC Parties. Since Go-Live progress has been made on these STCPs and three of the five STCPs that previously fell under the Memorandum of Understanding are now recommended to the STC Committee for approval and incorporation within Schedule 2 of the STC. These STCPs are:

STCP Amendment Proposal	STCP
PA014	STCP 17-1 Feasibility Study
PA015	STCP 20-1 Seven Year Statement
PA017	STCP 16-1 Investment Planning

1.1.4 The STCP Amendment Proposals themselves are split into three sections:

- a description of the Amendment itself;
- copies of the Change Request(s) incorporated where applicable; and
- change-marked text outlining the impact of the Change Request(s).

1.1.5 Copies of the STCPs with the change marking removed are also being circulated alongside these STCP Amendment Proposals.

1.1.6 The STC Committee are invited to:

- CONSIDER the attached STCP Amendment Proposals and, if they believe that the change-marked STCPs attached to PA005 to PA016 inclusive, accurately reflect the changes proposed by the original Change Requests (and agreed by the User Group),
- APPROVE that the revised STCPs be incorporated into Schedule 2 of the STC to be effective 26th May 2005.

- 1.1.7 Should the STC Committee believe that the change-marked STCPs attached to each STCPAP **DO NOT** accurately reflect the changes proposed by the Change Requests and agreed by the User Group, the STC Committee is to AGREE the appropriate way forward.
