Amendments to the Methodology for GB Commercial Arrangements relating to Interconnector Capacity Calculation

Dear Industry and Colleagues,

The GB Commercial Arrangements in relation to the current Interconnector Capacity Calculation Methodology outlines the commercial arrangements for payments relating to interconnector (hereinafter “IC”) capacity restrictions resulting from Net Transfer Capacity (hereinafter “NTC”) restrictions set by ESO.

This letter confirms the commercial arrangements set out in the document titled “Amendments to the Methodology for GB Commercial Arrangements relating to Interconnector Capacity Calculation”. This consultation focuses on amendments to the current Commercial Compensation Methodology only and ESO is welcoming the views of the market and stakeholders.

The suite of documents that make up this consultation are:

1. Consultation Covering Letter;
2. Amendments to NTC Commercial Compensation Methodology Consultation Cover Note;
3. Amended Methodology for GB Commercial Arrangements relating to Interconnector Capacity Calculation (Clean and Tracked Change Version); and
4. Consultation Response Proforma.

ESO is asking for your views on the Amended Methodology for GB Commercial Arrangements relating to Interconnector Capacity Calculation.

Please review the documentation and provide your responses using the Consultation Response Proforma.

The consultation shall close on the 3rd July 2023, at 5pm. Your response should be sent to: **Commercial.Operation@nationalgrideso.com**

Yours Sincerely,

Rob Marshall
