

Grid Code Review Panel Member Biography

**Name:**

David Monkhouse

Role:

Offshore Transmission Owner -
Panel Member

Biography:

David is a Chartered Electrical Engineer with over 20 years' experience in the electricity power transmission industry. He has worked on numerous transmission projects, both in Europe and internationally. His role is primarily that of a technical specialist and his experience spans the field of High Voltage Direct Current (HVDC) transmission, reactive compensation and voltage control of Alternating Current (AC) systems, power quality, power electronics and High Voltage (HV) equipment design and testing.

Specific Offshore Transmission experience includes development, construction and operations for Basslink, BritNed, NEMO, IFA 1 and Viking Link. He joined the Grid Code Review Panel in June 2023.
