

# STC Amendment Proposal Form

CA020

**1. Title of Amendment Proposal**

GB Transmission System Performance Reporting

**2. Description of the Proposed Amendment** *(mandatory field)*

This Amendment Proposal seeks to establish a process in the STC for the development of a statement by which the GB Transmission System Performance can be measured and for the production of the associated report. The production of the statement and the report are licence requirements on National Grid. It is a licence requirement on the TOs that they provide assistance to National Grid in the production of the report.

The proposed amendment is based upon existing STC processes by which the Transmission Licensees co-operate to produce the Seven Year Statement.

**3. Description of Issue or Defect that Proposed Amendment seeks to Address** *(mandatory field)*

In order to facilitate the requirements of Standard Licence Condition C17 on NGET and of Standard Licence Condition D3 on the TOs, it is proposed that a process be developed to facilitate the licence requirements.

**4. Impact on the STC** *(information should be given where possible)*

Additional wording to be inserted in Section C (modelled up Section D, Part One, Paragraph 4) together with ancillary changes to Section H.

**5. Impact upon the STCPs**

None

**6. Impact on other frameworks e.g. CUSC, BSC** *(information should be given where possible)*

None

**7. Impact on Core Industry Documentation** *(information should be given where possible)*

None

**8. Impact on Computer Systems and Processes used by STC Parties** *(information should be given where possible)*

None

**9. Details of any Related Modifications to Other Industry Codes** *(where known)*

None

**10. Justification for Proposed Amendment with Reference to Applicable STC Objectives**  
*(mandatory field)*

Establishment of a process in the STC to facilitate the development of the GB Transmission System Performance Report would aid licensees in the development, maintenance and operation of an efficient, economical and coordinated system of electricity transmission.

## **Section C Part Three**

### 8.1 GB Transmission System Performance Reporting

- 8.1.1 NGET shall discuss and evaluate with the TOs any proposed changes to the statement ("**Condition C17 Statement**") setting out the criteria by which system availability, security and service quality of the GB transmission system may be measured pursuant to Standard Condition C17 of its Transmission Licence which may be proposed by the TOs.
- 8.1.2 NGET shall, prior to seeking the approval of the Authority for any change to the Condition C17 Statement consult with each Transmission Owner and take into account any concerns that a Transmission Owner may have regarding changes to the costs it would incur by complying with its obligations under Standard Condition D3 of its Transmission Licence as a consequence of any proposed change to the statement.
- 8.1.3 NGET shall provide to each Transmission Owner those parts of the initial draft text of the report produce pursuant to Paragraph 3 of Standard Condition C17 ("**GB Transmission System Performance Report**") as are of relevance to it and shall liaise with each of them in order to agree any amendments to the initial draft text of the GB Transmission System Performance Report requested by a Transmission Owner. Any failure to agree such amendments may be referred as a Dispute to the Authority in accordance with Section H, paragraph 4.1.
- 8.1.4 In the event that NGET and a Transmission Owner fail to agree any amendments to the initial draft text of the Seven Year Statement then, subject to the determination of any Dispute referred to the Authority pursuant to sub-paragraph 8.1.3, NGET's proposals in respect of such amendments shall prevail.

**Also, corresponding changes to Section H, paragraph 4.1 pursuant to 8.1.3**
