New Modifications

There were no new modifications presented to the Panel.

New Authority Decisions

Awaiting Decisions

There are no SQSS Modifications awaiting a decision from Ofgem.

In flight Modifications

No updates were presented to the Panel.

Workgroup Reports

GSR032: Implementation of the Electricity System Restoration Standard

This Modification is proposing a number of changes to the Security and Quality of Supply Standard (SQSS) to facilitate the direction issued by BEIS1 in accordance with Special Condition 2.2 of National Grid's Electricity System Operator's Transmission Licence to implement an Electricity System Restoration Standard (ESRS) which requires 60% of electricity demand to be restored within 24 hours in all regions, and 100% of electricity demand to be restored within 5 days nationally.

The Panel agreed that the Terms of Reference have been met subject to minor amends to the legal text and approval of these by the Workgroup. On this basis the Panel agreed for GSR032 to proceed to Code Administrator Consultation. The Code Administrator Consultation will be published on 31 July 2023 and this will close on the 29 August 2023.

Draft Final Modification Reports

There were no Draft Final Modification Reports presented to the Panel.

Questions or feedback?

Code Administrator Representative: Terri Puddefoot, *Code Administrator*

Panel Secretary: Andrew Hemus, *Code Administrator*
