## Commentary

A short market during the early hours, between morning and midday, and from mid afternoon onwards. 488MW of Non-BM Fast Reserve was run over the early morning and another 488MW over the late afternoon. 88MW of STOR was run around 9pm.

Overnight Voltage Control supported mainly by Trades with some BM Action. Interconnector Trades overnight for RoCoF. Interconnector Trades alleviated thermal export constraints along the South Coast of England from 5am onwards. BM Action assisted prior to this.
