

Date:

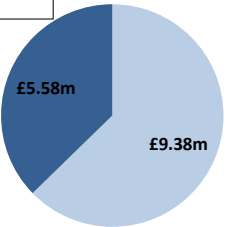

Saturday 24 Dec 2022

BSUoS Charge Estimate: £12.98/MWh

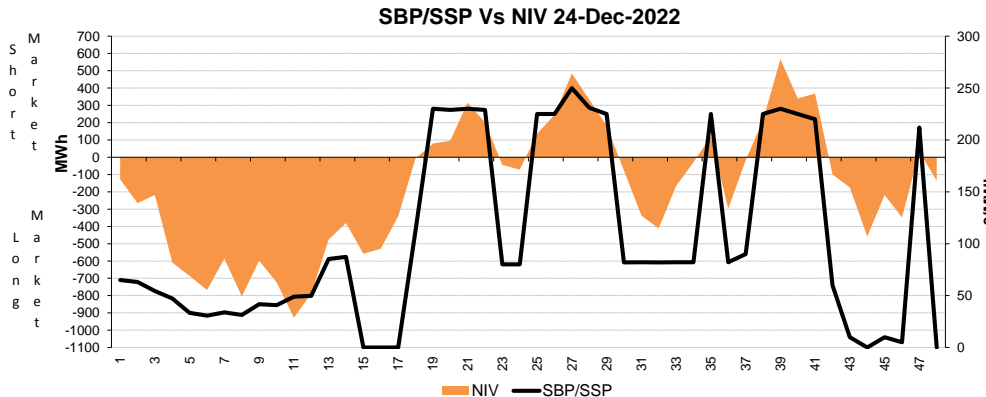

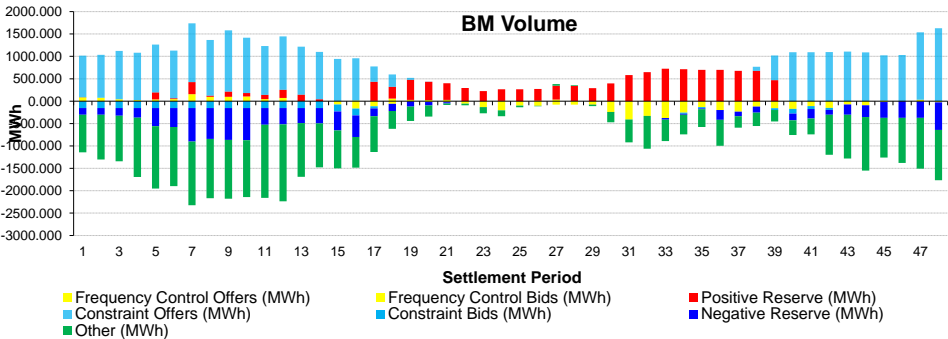

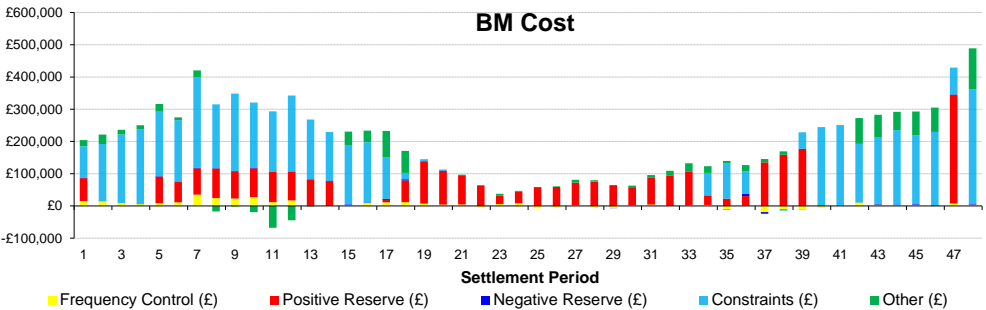

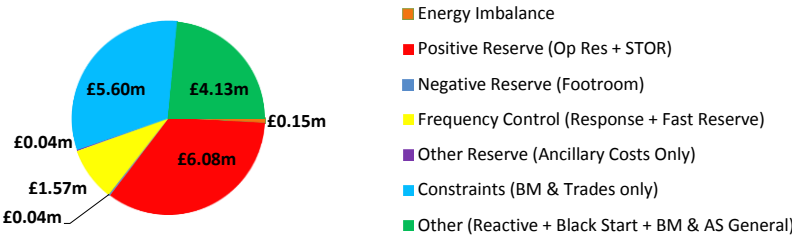

Total Outturn: £14.95m

BM Cost (Indicative)

AS Cost (Estimate)

Daily Balancing Costs

Commentary

A long market in the early hours of the morning, becoming short over midday and during the early evening. Trades were required for Downward Regulation during the morning, and for Margin in the afternoon. Overnight Trades and BM Action supported Voltage Control. BM Action assisted with System Inertia overnight. BM Action managed thermal export constraints in the North of Scotland over the evening period.
