### Commentary

The market was mostly short over the morning to midday periods, and from late afternoon to early evening. Interconnector Trades were required for Margin between 6am and 8am, and from 2pm to 9pm. 650MW of STOR was run over the evening Darkness Peak. Trades and BM Action supported overnight Voltage Control in the Midlands, Wales area, and the South East of England. BM Action alleviated thermal export constraints in the North of Scotland and North of England until the late afternoon.
